A two day workshop conducted by the local branch of the Newfoundland Teachers' Association, was held at the Notre Dame Academy, Labrador City last Thursday and Friday. Here is part of the gathering of teachers who turned out for the occasion. (Biron photo).

Two students, Amy Borgeson of J.R. Smallwood Collegiate and Mac Penney of Labrador City Collegiate, discuss the controversial Dennis-Hall-Ontario report on Education with one of the co-authors Mr. Dennis, following a panel discussion at a two-day workshop held in Labrador City last week. TOMORROW ONLY *Ayre's* IN THE WABUSH PLAZA

# Strikes and layoff seriously effecting economy

By Jim Owens

Wabush (Staff) — The 570 man layoff at Wabush Mines over the past couple of weeks, a strike by dockworkers at Sept Iles, and workman at the pelletizing plant, Schefferville has had its ill effects on most segments of society in Labrador West.

The big blow of course is to the men involved and their families, who, prior to the layoff had dollar bills in their pockets but are now scratching for pennies, in this free spending, highly industrial and most prosperous area of the province. Strikes and layoffs and the sudden halt to income are hazards which have plagued booming mining towns for years. Then of course, there is the

gigantic losses by the company itself.

Wabush is no exception. Some effects are immediately visible and others will come to the surface as the present situation continues.

The business community is feeling the pinch with some cutting back and others considering cutbacks in operations. It's a matter of economics with them. If there's no buying power, what alternative do you have? On the other hand, the unions feel that their membership and their families have supported the firms in the past and will continue to do so once the disputes are cleared up. They feel that the business

community should repay this loyalty in kind.

At least some business outlets here have taken this latter attitude. The Bank of Montreal made known its attitude in a press release during the past weekend which read in part:

"The Bank of Montreal fully realizes that the present situation presents certain hardships on the local populace. Due consideration is therefore being given to credit worthy persons so effected, with loan payments being deferred when requested and special assistance rendered where warranted.

The bank has clearly stated that re-possession of automobiles or household goods will not be made, and indeed is encouraging its customers to

avoid sale of these items at low prices if at all possible."

This action has been hailed by the local membership of the unions involved and they have gone on record in expressing their appreciation.

At a membership meeting last Friday evening, Bill Parsons, staff representative for the USWA in this area addressed the men to clear up certain rumors making the rounds at the time and to give an assessment of the situation thus far.

He told the men that no meetings with the company are planned. No strike vote will be taken until the mining operation is back in full production and employees are recalled.

One of the questions being asked concerns the

transportation of personal vehicles of employees taking vacations or layoffs. Whose fault is it?

The union claims it's not the fault of union members in Sept Iles. They say that a strike starts on the premise that their brother members have no right to strike or set up picket lines and to insist that they be respected. "They have this right (at least from any unionist's point of view) but the fault is definitely not theirs," States a recent union bulletin.

The bulletin went on to say that "the company claims that it can not lift the embargo in favor of personal vehicles belonging to its employees without risking law-suits from the part of contractors (at Churchill Falls and elsewhere) who have "non-essential" cargo to be transported."

It further stated, "According to a lawyer whom we have consulted (and a good one at that, Mr. David Lewis) an embargo did not have to be imposed on; transportation of passengers; their personal effects and essential necessities. Furthermore, there has been an agreement reached on that subject between the company and the union. According to Mr. Lewis an employee's vehicle must be considered part of his personal effects."

Our position is that the company is putting a much too restrictive interpretation on rules governing embargo. Is this done for a purpose? Let us merely say that all personal vehicles from Labrador City which went down immediately before the strike were unloaded in Sept Iles, and that three personal vehicles which came down from Schefferville immediately before the strike had not been unloaded. "Schefferville is on strike, Labrador City is not."

Meanwhile, lets take a look at the Quebec North Shore and Labrador West labor situation as it now exists.

SEPT ILES. On May 10, local 569, the dockworkers walked off their jobs and set up picket lines around the property of the Iron Ore Company of Canada. These workers have acquired the right to strike and are insisting that this right be respected. Other unions who are also at the bargaining table with IOC, showing their union solidarity have refused to cross the picket lines of 569. The result being that all activity at the loading dock and on the railway has been grounded to a halt.

WABUSH. Local 6285 has now been informed of the appointment of a conciliation board. The new collective agreement is in dispute. Ninety percent of the work force has been laid off as the result of strikes in the province of Quebec. No negotiating meetings have been set.

POINTE NOIRE. Local 6254, the employees of Wabush Mines are on strike and the company's operation is closed.

SCHEFFERVILLE. Local 5567 folded the operations of the company and is on strike.

GAGNON. Local 5778, employees of Quebec Cartier Mining is on legal strike. There is rumour that meetings are being held but little is known about progress or otherwise.

LABRADOR CITY. Local 5795 is in joint negotiations with 5567 at Schefferville and further meetings are scheduled for May 30 and 31.

Some 400 miners who were laid off from Wabush Mines during the past couple of weeks, received an up to date resume of the situation at a meeting held at the Recreation Centre in Wabush over the weekend. The union is currently in a dispute with the company over a working and wage agreement. (Biron photo).

## Carol players review

By Elizabeth Sowka

The Carol Players' performance was an eagerly anticipated event in the life of our City, and the spectators at the Labrador City Collegiate on Tuesday night must certainly have felt rewarded in their expectations.

In the first drama a very smooth atmosphere is created by the graciousness of Cynthia Moss, who remains very feminine, sweet, and controls perfectly her reactions even at the most crucial point of the dramatic plot of the story. Gerry Doyle awakes motherly feelings with his naive philosophy in life, and Peggy Bosche acts very naturally; a good mention to Sue Hobbs who looked a very worried young mother, and for John Rowe who was a very suspicious constable.

Oh, what a refreshing play the next one was, and such vivacious acting from Rosemary Dawson! Her spontaneity, her off-handedness and detached attitude are so characteristic of today's youth! Jean Farr was excellent in expressing all the romantic shyness of the past generation; a certain degree of self-pity, but come to think of it, it was so fashionable then, to linger and die of love pain... With a good and accurate study of human reactions, the author senses the psychological reactions and responses, and pulls the strings, using Chet Bevan's flippancy and Judy's overwhelming vitality and aggressiveness. Many bursts of laughter were the reward of this excellent cast; a good mark for Isobel Taylor who mastered the scene as an understanding mother; as for Glenys Jillett and Bob Brawley, a salutary mention for the natural lover's quarrel.

The prevailing theme of Russian life in Chekhov's day is man's essential loneliness, dullness and stagnation in Russian family life, where the man had all the privileges and rights, and where the woman had to accept the faded role of a silent companion. These Slavic characteristics were depicted perfectly by the charming Beverly Cunliffe who, as a sophisticated lady of the epoch, filled the scene and captured the attention of the audience. Brought up with all the good things of the elite class, she faces her creditor Mr. Smirnoff (Tom Farrell) with a certain contempt; after all, this self-made merchant lacks education and dares to intrude into her world claiming "money"... Yet, this rough, rude and realistic rival character softens when she provokes him and when she gets near him, he feels so weak... Once more the unexplained physical attraction between two people of different breeding remains the unsolved equation... Albert Chatwood was excellent as the levoted and obedient servant; and aroused much sympathy when Smirnoff attacked him.

Before closing, sincere congratulations are expressed to Kathy Pottle for her picturesque monologue and to Joanna Ambler for rounding so "Gay Paree".

A hearty applause is given to the technical assistants; the house manager, Daphne Neary; and to all those people who helped off stage so that the performance was such a success.

### Our Apologies

In May 22 issue of the Aurora, under the heading "In the Aurora" the date was omitted and it should have read "In the Aurora, June 16, 1965."

Our error caused some embarrassment and inconvenience to some of our readers.

The Aurora extends its sincere apologies to Mr. and Mrs. Guy Belanger, Mr. and Mrs. Walker, Mrs. C. Pileggi and Wabush Mines.

A presentation was made recently to the Regional Library at Labrador City by Dominion Stores. The presentation was in the form of a painting of the Queen which will be displayed at the library. Mrs. Murray Eddy, librarian, receives the portrait from the Dominion Stores Manager, Laurent Hebert.

# Scanning the market

By C.S. Devine

This week will commence a review of Canadian Industrial stocks.

In that, Toronto is by far the leader we will begin with this exchange. With the movement of many mining traders from Toronto to Vancouver, industrial listings have increased while mining decreased. In the late 50's Toronto had 536 mines and oils and 534 industrials as listed stocks. Today 726 industrials and 359 mines and oils. Under the industrial active list are 16 headings. Banks, cement, construction and materials, chemicals and textiles, food processing, industrial mines, senior (6) manufacturing and miscellaneous, mortgage and finance, oil and gas pipelines, oil refining, paper and forest products, publishing and broadcasting, real estate, retail merchandising durables, steels, utilities, telephone and power.

Over the next few columns we will review each group not forgetting the mining market and stocks listed on other exchanges.

**Banks.** - A recent release from a Toronto based advisory service listed the banks as follows. Buy at current price, Bank of Nova Scotia, Canadian Imperial Bank of Commerce and Toronto Dominion. After the rapid price increase during the past 12 months this analyst feels

Bank of Montreal, Canadian Nationale and Royal Bank are fully price, cement. Construction and materials.

1. Bridge and Tank. Strictly speculative. 1968-69 high-low \$4.04 - \$1.95. Present price \$3.50. Stock reached \$7.75 in 1966. Engaged in design, fabrication and erection of structural steel for buildings and bridges. Branches and subsidiaries in Hamilton, Edmonton, Winnipeg and Saint John, N.B. Stock seems to be in a recovery trend.

2. Lake Ontario Cement. 1968-69 high-low \$2.70. Present price \$3.85. Controlled by Denison Mines. Sales are steady at \$20 million per annum and profits have stabilized around 25 cents per share. Operates cement and aggregate plant at Picton, Ontario, and distributes product to Toronto and North Western New York State. Price decrease seems to have terminated and recovery is indicated.

3. L.E. Shaw and Company. Distinctly bright outlook for a major rise in price. 1968-69 high-low - \$6.00. Present price \$9.62 is less than 10 times 1968 earnings of 97 cents per share. Engaged in the manufacture and sale of clay brick, structural and concrete products. Operates 13 plants in Nova Scotia, New Brunswick and Newfoundland.

Class "A" shares are listed on the Toronto and Montreal exchanges. Recommended as an immediate buy-at market.

In answer to an inquiry on the Vancouver "interim listing" mining stocks on interim listing, the Exchange will carry a new section of stocks in this category at the request of the securities commission, following primary distribution.

Interim listed stocks will be traded in the same manner as the listed, except that the interim listed stocks will not be included in the Exchange's quotation system. Interim listed companies will also be required either to qualify for permanent listing or to apply to the securities commission or a continuance of interim listing at the end of each year.

This arrangement, according to John A. VanLuven, president of the Exchange is believed to be a pioneer moving among North American Exchanges.

**Short selling.** - Selling shares one does not own.

The client must inform his broker that it is a short sale and broker will endeavour to borrow the stock, usually from another broker. Short selling is a speculative operation, taken in the belief that the price of the shares will fall. Short selling tends to depress prices and short covering when a client buys a stock back tends to raise prices. Short selling is regarded as a legitimate phase of trading in securities.

Most stock exchanges prohibit the short sale of securities below the price at which the last board lot was traded and publish the "short position" periodically for the protection of the public.

Next week. Continuance of Toronto Industrials.

Sometimes T-Dor gets downright serious about Labwab and the world around it, and this is one of those times.

The seriousness this week is brought about by the current of production facilities locally, and of course in neighboring Quebec. We are not about to be involved in the pros and cons of the shutdown itself, but we are concerned that the facility of transportation is an important subject in which too little thought has been exercised.

All too often in the past we have argued with our political kasters (and they are just that) that we needed a road out. Our arguments, it seems to T-Dor, have been selfish ones. They were selfish in the light that each one of us when he complained of having no road, thought about himself, his car, his vacation, and the means at his disposal of getting around the local wilderness from day to day, and this is, of course, a valid argument from any tax-payers point of view.

A second argument voiced by T-Dor himself from time to time, is that we need a road to encourage people to come in to Labrador. If we are to grow as a functional part of the Canadian Economy then people must come in to see our part of the world, to find out that the land God gave Cain is not all that bad, and to have a closer look at what could be a tourist Bonanza.

There is a third argument, and it is all too evident this troubled month of May. In this year of Our Lord, 1969, man has sent his fellows twice to the moon, man has moved mountains to ease, man has transplanted hearts, and man has even completed negotiations with Quebec. (In fact, it took a Newfoundlander to promote that one). For the life of us however, we can not understand why man has been unable to forsee a situation which now exists and which is striking very deeply into the Labrador (and the Newfoundland) Economy. We firmly believe that the current situation could be made a little more palatable for all concerned if roads were in existence, and particularly "The Road". Possibly we are too full of our own importance here in Labwab, and we complain unjustifiably that we are not heard in St. John's in a manner in keeping with our importance to the provincial economy as a whole. This month we feel we are justified to the provincial economy as a whole. This month we feel we are justified however, in a little spouting off about our perennial pet peave number one. right now, especially when it is evident that gasoline, mail order merchandise, automobiles, cement, construction machinery, and bunker c, food and other amenities cannot be handled by air with reasonable ease. It seems obvious to us too that layoffs in some cases could be averted if a second means of surface transportation were available. It is decidedly obvious that the Churchill Falls power project would continue unabated if a road connected that area with Goose Bay. Considerable construction work in Labrador West itself will come to a grinding halt shortly, and this type of industry uses road transport primarily in any area to deliver its day to day needs. In short we are leaving ourselves and the future Labrador Economy in a grave situation if we continue to ignore the necessity of alternative means of surface transport.

We realize only too well that Newfoundland cannot afford to build a road from Goose Bay to Quebec, and we realize that Quebec has not the inclination to build one for us, but somewhere along the line it must be agreed that the need exists and all three governments must get their heads together. Quebec has a stake in this because of her interests in new Quebec, Newfoundland has a stake because her life's blood itself may well be found in Labrador and of course Ottawa has a stake because road-building to resources is an avenue where her money is better spent than on out and out relief.

Someone is required in St. John's to expound the theory to government that it may be all very well to centralize, it may be well to move portions of the Island's population to more suitable areas of endeavour, but transport is a must wherever you or I and Labwab will not go on producing wealth without the amenities to be found elsewhere.

Yours in unproductive idleness,  
T-Dor

## SOCIAL SCENE

David and Violet Callahan of Labrador City, happily announced the birth of a daughter, their first child, Sharon Lynn, 8 lbs. 6 ozs, Sunday, May 25 at the Captain William Jackman Memorial Hospital.

Mr. and Mrs. Grayson Crowley and son Kenneth of Labrador City left last Tuesday for a holiday in St. John's. While there, they will attend the wedding of Ella's sister.

The Ladies Auxiliary of the Knights of Columbus will hold their monthly meeting on Sunday, June 8 at O'Brien A. Hall at 8 p.m. All wives of the Knights of Columbus are cordially invited to attend. This will be a brief meeting followed by a social hour.

On Sunday, June 15, the Ladies Auxiliary will join the Knights of Columbus members in a Corporal Communion. Mass at 10:30 a.m. in the R.C. Church, Labrador City and after Mass, they will walk to the war memorial for a wreath laying ceremony.

Born to Frank and Janette Henley at the Captain William Jackman Memorial Hospital, May 24, a son. Both mother and baby are fine.

Born to Steve and Hughena Hunt (nee Pittman) at the Captain William Jackman Memorial Hospital, Labrador City, a baby boy, their first, 5 pounds 10 1/2 ounces.

# Week in review

## No quick settlement soon?

There are still no signs that a quick settlement will be reached between Wabush Mines and The United Steel Workers of America.

570 men have been laid off because of the dock-workers strike at Sept-Iles, which has stopped the movement of ore from Wabush to the pelletizing plant at Shefferville.

The economy of the area is undergoing a severe squeeze with the loss of the weekly payroll of about \$200,000.

Many of the men laid off have left for their homes on the Island.

## Library Opened

The Happy Valley Regional Library was officially opened last week by Miss Jessie Mifflin, deputy director of the Public Library Services in Newfoundland and Labrador.

The Library boasts 3,000 volumes, reading room, study room and there is a possibility that a museum may be added.

Miss Mifflin, had high praise for the library and said it was moving in the right direction.

Special recognition and praise were also given to Mr. and Mrs. Clarence Brown, Mrs. Henry Bailke, Mrs. Alice Perrault, and Stephanie Edwards for their work with the library in the past.

## On Research Trip

A St. John's vessel, the Beinir, has sailed for the Labrador coast to do experimental research work for the department of Fisheries.

The crew will spend five months doing research on the queen crab.

Most of the crew of 16 are from the Fisheries College. They will go as far north as Cape Chidley but most of the work will be done on Hamilton Bank.

## Plans to erect dormitory

Eskimo and settler children in the North West River area of Labrador are to get new dormitory and greatly expanded school facilities.

Premier Smallwood said tenders for the \$1,000,000 project which is being jointly financed by the federal and provincial governments, will be called shortly.

The school, to be operated by the Amalgamated School Board at North West River, will have an enrollment of 230.

The dormitory which will accommodate 72, will be operated by the International Grenfell Association.

Both buildings are expected to be ready for occupancy by September.

## Food Shortage

\$173,000 pounds of food reached Wabush from Seven Islands by rail last week.

Spokesmen for Dominion Stores and Bowring Brothers at Labrador City stated that their supplies in a number of items, particularly vegetables and sugar, were in short supply or near depletion.

The shortage was attributed to the overall labor situation at Seven Islands, where railway workers refused to cross picket lines of the striking dockworkers.

## TAMARACK OPENS THIS WEEKEND

The Tamarack Golf Club in Labrador City will open its season on May 31. Membership fees have already been set for the club and are very reasonable. Family membership is \$35, while single male is \$25., single female \$15., and junior membership has been set at \$10.

To improve golfing and ensure proper care of the facilities the club is hoping every member will be the etiquette of golf.

Here are some of the rules that some golfer should note.

No one should move, talk or stand close to or directly behind the ball of the whole when a player is addressing the ball or making a stroke.

The player who has the honor should be allowed to play before his opponent or fellow competitor tees his ball.

No player should play until the players in front are out of range.

In the interest of all, players should play without delay.

Players searching for a ball should allow other players coming up to pass them. They should signal to the players following them to pass and should not continue their play until those players have passed and are out of range.

Before leaving a bunker, a player should carefully fill up holes made by him therein.

Through the green, a player should ensure that any turf cut or displaced by him is replaced at once and pressed down, and that, after the players hole out any damage to the putting green made by the ball or players is carefully repaired. Players should ensure that, when dropping bags or the flagstick no damage is done to the putting green, and that neither they or their caddies damage the hole by standing close to the hole or in handling the flagstick or in removing the ball from the hole. The flagstick should be properly replaced in the hole before the players leave the putting green.

When the play of a hole has been completed, players should immediately leave the putting green.

A single player has no standing and should give way to a match of any kind.

If a match fails to keep its place on the course and lose more than one clear hole on the players front, it should allow the match following to pass.

## NORTHERN DIVISION TEAM MUCH IMPROVED.

The provincial darts championships were held in Grand Falls last week and the Labrador City team which represented the northern division went through hell and fire to attend.

After learning that the subsidy from the provincial government

was not available the team members hit every business establishment in the area for a donation. The end result was excellent as the contributors heaped enough dough to pay the expenses.

The team only won one leg in the 1968 competition but this year they won nine legs in a losing cause. The team gave an excellent showing but still had to settle for a third place finish in the tournament. Labrador city defeated St. John's 3-2 and then Stephenville by an identical 3-2 score. When Stephenville defeated St. John's the stage was set for a semi-final playoff between Labrador City and Stephenville. In the two games, Stephenville came out on top, six legs to three, only to be defeated by Grand Falls in five straight legs.

John Roberts finished second in the high three legs and also high average, to give the Labrador City team a little glory.

Regulars for the Labrador City entry were: Larry Dutton, Stan George, Gerard Dennis and John Roberts. Roy Boyle of Goose Bay substituted for Art Byrne who was hospitalized the day before the team departed from Wabush. Bill Harview of Wabush substituted for Bill Martin who had a work commitment. Ted Fudge of Goose Bay and Dick Abercrombie of Wabush accompanied the team as spears. John Cunningham was team manager.

Following are the donors who made the trip for the darts team a reality. The players and manager extend a sincere thanks to these firms and individuals. Bennett Brewing Company, Ashuanipi Social Club, Goose Bay Squirrel Club, Iron Ore Company of Canada, Branch 47 of the Royal Canadian Legion, Labrador City and Branch 47 of the Legion's Darts league, Branch 57 Legion Mens' Dart League, Branch 57 mixed Darts League, Ashuanipi Mens' Darts League, Ayre's Limited, Duth Trading, Carol Estates, Wabush Recreation Centre, Wabush Transportation Company, Hudson Restaurant, Ungava Restaurant and Dr. J. Hearn.

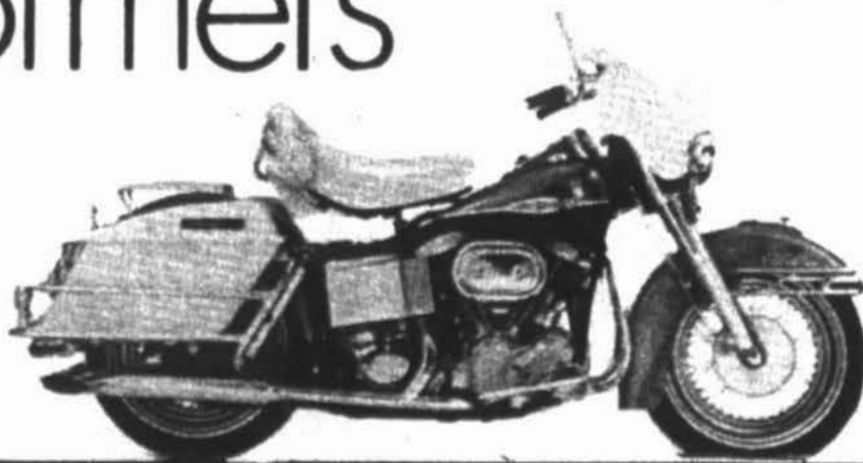

## BADMINTON GOLF FORMED IN WABUSH

Barry Goodwin is president of the newly formed Wabush Badminton club. The club has to limit its membership to 25 due to the lack of facilities and already this number has been reached. The club is using the recreation centre facilities and meet every Thursday night. Other executive members are Trevor Foster, Marty Goodwin, Marcel Lesveque, Ian Lacey and Carl Lemke. The Recreation Centre also provides the equipment to those who do not have their own.

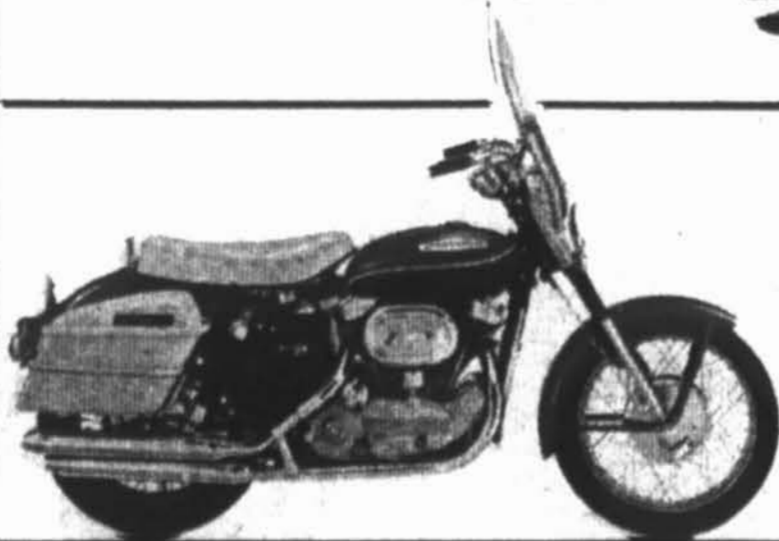

The Labrador City Badminton Club has offered help in the form of instructors to the new club. It is hoped to stage an inter-city tournament between the two clubs in the future.

# the Harley-Davidson out-performers

...out-perform  
everything on  
two wheels!

ELECTRA GLIDE. 1200 cc's of finely-tuned power ready to respond. Freeway speeds. City traffic. Rough country roads. Only one motorcycle lets you handle them all - all day long. The care that goes into building this machine is evident in every ride. It is the ultimate in two wheel motoring.

SPORTSTER. They all talk about this 900 cc cycle and then line up behind it. It is the fastest street bike in the world. And every component measures up to that speed. The two models, CH and H, let you choose between electric and kick starting. Ride either one just once and there's no other choice.

SPRINT. After capturing every honor at 250 cc, the new Sprint now moves up with a headstrong 350 cc engine. To match that power, there's a new carb, new dry clutch and new mufflers and pipes. This one just won't quit. Available as a swinging street scrambler, SS, or as a pure scrambling machine, ERS.

"Your friendly HARLEY-DAVIDSON-MERCURY-CHESTNUT-HONDA and NORTON Dealer"

The annual school tin can bonspiel at the Carol Curling Club was held recently and proved to be an outstanding success. Approximately 300 children took part in the competition. Shown are some of the winners during a presentation of awards following the three day event. (Biron photo).

**SOLVE - A - CRIME**

By A. C. Gordon  
You Are The Detective

"And so you're telling me now, more than two months after the shooting, that you saw Hal Pender kill Mike Blaney." You gaze hard at the red-haired Penny McDonald as she stands before you in sullen-eyed defiance.

"That's what I'm telling you," she says. "You would never have heard anything from me either, if that rat, Hal, had lived up to his promise. He blew town right after the shooting . . . said he'd send for me as soon as the heat was off. I never heard a word from him . . . now today I found out where he is, and that he's been running around with another woman. So, I want to see him get what he's got coming to him! I can back up my story, too. I can take you where he hid the gun he used on Mike Blaney."

You and the vindictive girl climb into your car, and she directs you to a lonely, heavily-wooded spot about three miles outside of town. Here the girl clammers out of your car and begins rummaging around with her high-heeled shoes through the leaves and twigs strewn on the ground under a tall elm tree. Finally she points to a place on the ground, and you dig about a foot into the damp soil and come up with a .45 caliber revolver. After peering down its wicked looking, glistening barrel, you then ascertain that there are still three cartridges in its chamber. Mike Blaney had been shot three times."

You glance up and catch Penny's disdainful gaze on you, then you say, "You're very deeply involved in this, too, you know. You claim you saw Hal Pender shoot Mike Blaney. I can take you in and hold you as an accessory before the fact, and after the fact, too."

"Makes no difference to me what you do," she retorts, "I just want to see Hal burn for what he's done to me. I saw him shoot Mike, and I saw him hide the gun here afterwards. So what more do you want out of me?"

"I want a little more of the truth out of you," you say. "You've been lying to me!"

How do you know this?

**SOLUTION**

When you were examining the gun, you peered down its GLISTENING barrel. Surely, if the weapon had been buried in the ground for more than two months after the shooting, as Penny McDonald claimed, it would have accumulated a lot of rust!

## New office hours at EPA announced

Wabush (Staff)—Eastern Provincial Airways has announced its new office and ticket counter hours to become effective June 1. Monday, Thursday and Friday the hours will be for 10 a.m. to 6 p.m., Saturday's hours will be from 10 a.m. to 3 p.m. and 10 p.m. to 3 a.m. Business hours for Sunday will be from 10 p.m. to 3 a.m.

Freight and express packages will be accepted daily except Saturday and Sunday from 10 a.m. to 6 p.m. and on Saturday and Sunday the hours will be from 10 p.m. to 3 a.m.

A spokesman for the airline said freight shipments cannot be accepted or delivered at any other times, other than prescribed above.

This schedule is geared to tie in with the new EPA jet service to be officially inaugurated June 1.

BY CARL PAYNE TOBEY  
ILLUSTRATED BY DEGRAZIA

## PAST

### WHAT CAUSES CYCLES?

After the 1929 stock market crash, President Herbert Hoover called in the top economist of the Department of Commerce, Edward R. Dewey, and told him, "Find out what causes stock market crashes." After interviewing economists all over the country, Dewey reported, "Nobody knows." Thereafter, Dewey founded the Foundation for the Study of Cycles, which has investigated cycles ever since. Recently, Dewey announced evidence that sunspot cycles appear to coincide with planetary factors.

## THE PISCES WOMAN

She can be glamorous, enthusiastic and seductive. The best world is that of her imagination, where everything is beautiful, idealistic, soft lights and romantic. Be discrete about withdrawing her from this world for she can be defeated, depressed and dejected if you don't allow her to express her creativity. You will be a lot happier if you leave reality behind and join her.

## PRESENT

## FUTURE

## TOBEY'S PREDICTION:

Human instability increases all week. People can be more jittery. Overconfidence increases and it can lead people to take foolish chances. More important for birthdays near June 16th, September 18th, December 17th and March 16th. This carries into next week. Slow down a bit and think things out before you act. A wait-and-see policy best.

© 1969 by NEA, Inc.

## YOUR WEEK AHEAD

- A** ARIES  
Mar. 21-Apr. 19  
*You can have a lot of urges this week, but caution is wise. Best not take unnecessary risks now.*
- T** TAURUS  
Apr. 20-May 20  
*Wednesday thru Friday can be opportune, but there is more excitement over the next weekend. Relax.*
- G** GEMINI  
May 21-Jun. 21  
*You are leading up to something, particularly if your birthday is near next weekend. Restlessness.*
- C** CANCER  
Jun. 22-Jul. 22  
*Important to keep your affairs well balanced, and to avoid too much extravagance. Greater activity.*
- L** LEO  
Jul. 23-Aug. 22  
*There can be unexpected developments. Best to hold off any important decisions till next week. Relax.*
- V** VIRGO  
Aug. 23-Sep. 22  
*Don't take too seriously the advice people may give you. Better to wait and see. Let things develop.*

- ♎** LIBRA  
Sep. 23-Oct. 22  
*Doubtful socially. You may have to make reappraisal when this week is over. Things can be happening.*
- ♏** SCORPIO  
Oct. 23-Nov. 21  
*Watch your reactions. Don't be too impulsive. This when you could make some mistakes. Relax.*
- ♐** SAGITTARIUS  
Nov. 22-Dec. 21  
*Don't be too sure of yourself. Rather be on the alert and ready for changes when they develop.*
- ♑** CAPRICORN  
Dec. 22-Jan. 19  
*Don't depend too much on the old. Avoid over-optimism. Observe well. There may be some adjustments.*
- ♒** AQUARIUS  
Jan. 20-Feb. 18  
*Take your time. New ideas may have good possibilities, but require much in the way of perfection.*
- ♓** PISCES  
Feb. 19-Mar. 20  
*Your sentiments can be passing through some evolution of sorts. Maintain control of any illusions.*

### WHAT CAUSES TIDES?

It has long been claimed that the gravity of the moon lifts the tides, and astronomical books show diagrams with high tide, under the moon. It took Hugh Auchincloss Brown to point out that high tide is seldom under the moon. On the east coast of the U.S., low tide is under the moon, except on the west coast of Florida where it takes extra time for the water to come around the peninsula. However, the time interval between two consecutive tides is exactly the same as the length of time it takes the earth to turn under the moon. Is this coincidence? (Continued.)
