# The Aurora

The weekly newspaper of Labrador West

Vol. 1 NO. 20

PUBLISHED IN LABRADOR WEST, THURSDAY, AUGUST 21, 1969

Price 10 Cents

**THEY DIDN'T GET AWAY!** This very fine catch proves that Newfoundland's Labrador is still a wonderful place for fresh water trout. Angler Horst Illing of Labrador West is shown here with a friend and a proud catch of speckled trout. With fine summer weather, many residents of the twin mining towns are visiting the lakes and rivers of their area in hopes of bringing home a number of big ones. The fishing in the ponds, lakes and rivers of Labrador is practically legendary and for years people have visited the wilds there to enjoy fishing and camping. Residents of Labrador West are fortunate in that these great angling spots are easily accessible to them! (Biron Photo)

# this week in ASTROLOGY

BY CARL PAYNE TOBEY  
ILLUSTRATED BY DEGRAZIA

## PAST

### WHEN BUSINESS FALLS OFF

Born in San Francisco, Paul Goshorn owned a printing plant in Kansas City and had one big account in Texas. This client went bankrupt, causing his plant to become idle. A woman astrologer named Alma Graning urged him to use the plant to print a new product. He borrowed the money and went ahead, calling it The Voice of Astrology. It became a hit. He died a wealthy man. The product continues since his death, edited by Gwen Stiefbold. Printers played an important role in bringing astrology back.

## FUTURE

### TOBEY'S PREDICTION:

Youth is taking a new look. Pluto, a planet that is associated with youthful pioneering urges, is in the plane of the lunar orbit. Students are questioning professors about why astrology has always been opposed in the universities without investigation. This movement will grow. Watch astrology spread over the campus where it can become better refined and its traditions can be tested for truth. Riots are not a means of accomplishment, but students may be justified in some of their ideas opposing the old academic dogma and restrictions.

## PRESENT

### SCORPIO PLAYBOY

Praise members of his family and you'll be in right with his unconscious. He'll begin to think of you as a member of his household and treat you as a part of it. He'll be less apt to be taking out your girl friends on the sly. But don't go too far or he'll treat you like his sister, develop some guilt complexes and look for someone else.

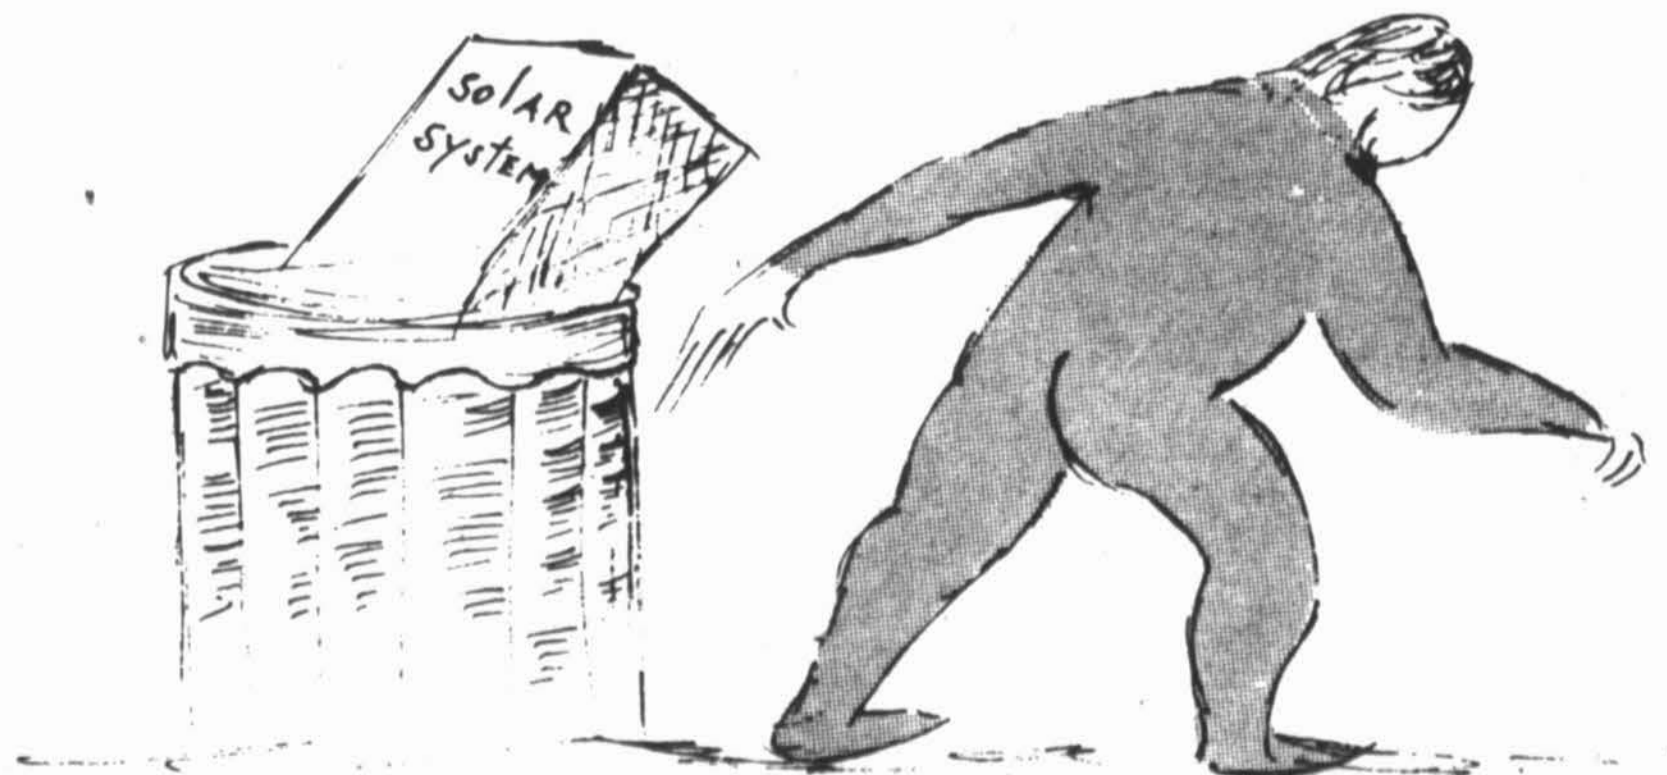

## YOUR WEEK AHEAD

- A** ARIES  
Mar. 21-Apr. 19  
*The pioneering urge can increase. You may want to do new things on your own. Increased restlessness.*
- T** TAURUS  
Apr. 20-May 20  
*Good week for artistic expression. Pay attention to new ideas Mon.-Tues. Remainder of week social.*
- G** GEMINI  
May 21-Jun. 21  
*Urge to make changes and adjustments is greater all week. Your mind can travel in some new realms.*
- C** CANCER  
Jun. 22-Jul. 22  
*Sunday doubtful. Your judgment unreliable. The week grows better as you feel your way into it. Relax.*
- L** LEO  
Jul. 23-Aug. 22  
*Caution through Tuesday. Don't blunder. Remainder of week can be active. Get off to a new start.*
- V** VIRGO  
Aug. 23-Sep. 22  
*Red lights ahead. Take your time. Wednesday-Thursday could carry the unexpected. Coast along.*

- L** LIBRA  
Sep. 23-Oct. 22  
*Handle important items Monday-Tuesday, then slow down, watch health. Avoid clash of interests.*
- S** SCORPIO  
Oct. 23-Nov. 21  
*Avoid mistakes Monday-Tuesday. Wednesday-Thursday more independent, favoring artistic undertakings.*
- S** SAGITTARIUS  
Nov. 22-Dec. 21  
*Good through Wednesday. Thursday-Friday could carry some illusions. Don't go off deep end.*
- C** CAPRICORN  
Dec. 22-Jan. 19  
*Sunday favorable for whatever you do, within reason. Week okay. Slow down for Friday-Saturday.*
- A** AQUARIUS  
Jan. 20-Feb. 18  
*Better for making changes and adjustments or for starting any new ventures. A week for some action.*
- P** PISCES  
Feb. 19-Mar. 20  
*Be alert for new opportunities. Your dreams have chance of fulfillment. Wednesday-Thursday best.*

### MATHEMATICAL DETERMINATISM

Ever since Ptolemy, astrologers have been trying to explain astrology in material terms. This isn't necessary. Astrology can be regarded as a mathematical phenomenon. Certain things happen in a certain way because, mathematically, there is no other way. The solar system is a perfectly functioning mathematical unit. Human dynamics appear to function to the same mathematical design. One coincides with the other. When the astrologer understands all there is to know about the mathematics of the solar system, he can throw it away.

## Scanning the market

BY C.S. DEVINE

In answer to an inquiry, the following are the 30 stocks which are used in the Dow Jones Industrial Averages: Allied Chemical, Aluminum Co., American Can., American Telephone & Telegraph, American Tobacco, Anaconda Copper, Bethlehem Steel, Chrysler Corp., Du Pont Chemicals, Eastman Kodak, General Electric, General Foods, General Motors, Goodyear Tire, International Harvester, International Nickel, International Paper, Johns - Manville, Owens - Illinois, Procter and Gamble, Sears Roebuck, Standard Oil of California, Standard Oil of New Jersey, Swift & Co., Texaco, Union Carbide, United Aircraft, U.S. Steel, Westinghouse Electric, Woolworth Stores.

### UNDERSTANDING THE OVER-THE-COUNTER MARKET

The over - the - counter market is not a place. It's a way of buying and selling securities by negotiation, instead of public auction, as on stock exchanges.

Who negotiates, and how? Dealers and brokers. Some 4,000 of them, linked by a massive telephone and teletype network that stretches from coast to coast in Canada & the U.S., and around the world. What kind of stocks are traded over - the - counter? All the publicly owned stocks and bonds of all the companies not "listed" on stock exchanges are bought and sold over - the - counter.

About 5,000 are available through exchanges in North America, compared to over 50,000 on the unlisted market.

Over - the - counter securities range all the way from the most volatile penny stocks to the most conservative, gilt - edged Government bonds. Many people assume that if a stock isn't listed on an exchange it somehow hasn't "Made the grade".

Not necessarily true. Hundreds of companies which could qualify for listing on an exchange prefer to be traded over - the - counter.

Most important, when the securities of any company are offered to the public for the first time, they are always offered over - the - counter.

If there's an Xerox or IBM around today, this must be the place. Last year Seven - Up and Dravo doubled. In fact many increased 100%. However, to put the picture in its proper perspective, we add that many of these stocks that went up double or more were very highly speculative issues. Furthermore, a great many unlisted securities suffered losses too.

### WHAT HAPPENS WHEN YOU PLACE AN ORDER

From the investor's point of view, the procedures for buying listed and unlisted securities may seem pretty much the same. But there are differences at the broker's end. Big differences. And they could be important to you.

First, when you ask the bank or your broker to buy a listed stock, they buy it at public auction on an exchange. You pay the price that prevails for any buyer at a given moment.

All over - the - counter trading, on the other hand, is done by negotiating, bargaining among dealers and brokers. There is no set price at any one time. Indeed, there are frequently wide differences in price between dealers.

Second, when you ask your bank or broker to buy a listed stock, they virtually always act as your agent.

But in the over - the - counter market many stockbrokers may wear two hats. That of an agent. Or that of a principal. As an agent, your stockbroker scouts the available sources of the stock you want, negotiates the price, and charges you a commission for his efforts. As a dealer, he sells the stock to you directly out of his own inventory, either at a profit or loss, adding a markup above the prevailing market price for his services.

Miss Nancy Riley, daughter of Mr. and Mrs. Albert Riley, 410, Grenfell Crescent, Labrador City, has been declared the winner of the United Steel Workers of America, \$300.00 scholarship for the best "2000 word essay on organized labour in Canada". This was a cross Canada competition. Nancy will be leaving early in September for the University of New Brunswick, where she will commence studies in Science.

## Carol Lake railway schedule

Effective Tuesday August 19, express train service between Labrador City, Schefferville and Sept Iles will be as follows:

Tuesday and Thursday - Depart Labrador City 6:00 p.m. Arrive Schefferville 12:00 midnight approximately.

Wednesday and Friday - Depart Labrador City 3:00 p.m. Arrive Sept Iles 12:00 midnight approximately.

## Tamarack, tennis

The Ladies had a '2-ball foursome' on Tuesday 5 August and 24 ladies participated. The winners were:

low gross - Fridel Spitznagel and Pat Koch  
low net - Jessie Bell and Eldene McCormick

On Saturday, Aug. 16 the ladies had an 'Irons only' Tournament and participants were asked to be at the Committee Trailer by 8:45 a.m. as there was a short meeting prior to tee off. As the pairs were drawn at the trailer there was no deadline for registration.

The caribou Tennis Club held a mid-season tournament recently. The winners were as follows:

Ladies Singles: Pille Leonfellner,  
Mens Singles: George Pfeifer  
Mens Doubles: George Pfeifer and Drago Freudenrick

Plans are now underway for another tournament to be held toward the end of the season.

## The cynic's dictionary

**ABASEMENT:** (n) A decent and customary mental attitude in the presence of wealth or power. Peculiarly appropriate in an employee when addressing an employer.

**ABATIS:** (n) Rubbish in front of a fort, to prevent the rubbish outside from molesting the rubbish inside.

**ABDICATION:** (n) An act whereby a sovereign attests his sense of the high temperature of the throne.

Poor Isabella's dead, whose abdication

Set all tongues wagging in the Spanish nation.

For that performance 'twere unfair to scold her.

She wisely left a throne too hot to hold her.

To history she'll be no royal riddle -

Merely a plain parched pea that jumped the griddle.

G.J.

**ABDOMEN:** (n) The temple of the God Stomach, in whose worship, with sacrificial rights, all true men engage. From women this ancient faith commands but a stammering assent. They sometimes minister at the altar in a half-hearted and ineffective way, but true reverence for the one deity that men really adore they know not. If woman had a free hand in the world's marketing the race would become graminivorous.

**ABORIGINES:** (n) Persons of little worth found cumbering the soil of a newly discovered country. They soon cease to cumber, they fertilize.

## Round and about

In this column two weeks ago we took issue with the outlook of the Finance Companies during the strike period. Recently other stories have come to light. The Financial Collection Agencies have been going all out in threatening court proceedings, re-possession etc., during this period, two in particular, one operating out of Sept Iles, Que., and the other out of St. John's. It is indeed unfortunate when the Government of the People tends to ignore that such parasites exist. Why either has the Provincial or Federal lawmakers not seen fit to take action and curb the methods of operation of such agencies? While we realize that a similar institution is a necessary evil in our age of installment and credit buying, the abuse and hardship imposed by such collection agencies, under the protection of the law is difficult to comprehend.

The methods of operation fall into the category of vultures. How many jobs have been lost, undue hardship imposed because of their method of approach? Not enough investigating is done by agencies, so long as a bill is placed for collection they are happy to get their 20% commission in any way.

On the other side of the coin you have the "credit reporter", a ghost-like figure who lurks in the shadows of every community, listening to gossip and writing a report for \$1.50 on each individual, more than likely over a beer.

A year or so ago, Steve Neary, then a backbencher, declared war on credit bureaus, whatever happened to all the talk? You should be in a better position now, as Minister of Welfare to do something, but maybe too much cannot be expected! Have you noticed that recently the Government appointed the Founder of the Collection Movement in Newfoundland to the Medicare Commission? E - nuff - said.

We were of the opinion that Premier Smallwood was the only one "that stole candy from the mouths of babe's", not so, if you go to a local restaurant and buy a chocolate bar, you will pay 16 cents for a 10-cent bar.

The Progressive Conservative Party are an enlightened group. In a recent issue of the Daily News, Mr. Gerald Ottenheimer announced that all Provincial and Federal P. C. Members would be making a tour of the province, in anticipation of a Provincial Election being called in the not too distant future. You guessed right, the tour commences in St. John's and ends at Port aux Basques, that's Newfoundland!

While on the subject of politics, we have not heard from either Premier Smallwood or John Crosbie with respect to their plans for leadership campaigning in Labrador.

We've noted that Tom Burgess has "lit" into E P A over their service to Labrador. Mr. W. Gaudet of E P A has issued a statement in reply. It seems that Mr. Burgess has suggested the alternative to E P A be Air Canada. We wonder if this would be the case if the people of Goose Bay had a choice? They don't seem to be too happy with the service provided by Air Canada.

Have not heard much of late from the Committee undertaking to raise funds for the Boy Scouts. When can an announcement be expected as to when the draw will take place for the car raffle?

Have you noticed the deterioration in the pavement approaching the Wabush Shopping Plaza, or have you fallen into one of the craters?

## "True" North

The Federal Government continues to press forward with transportation facilities in the Yukon and the Northwest Territories. Recently announced is a \$2.4 Million contract for a 67 mile trunk highway between Fort Providence and Fort Simpson in the N.W.T.

The 2 year contract to extend the Mackenzie Highway to Fort Simpson has been awarded to T. A. Klemke & Sons of Medicine Hat, Alberta. The contract covers construction between mile 229 and mile 296 - mile 296 being at Fort Simpson.

Eventually the Mackenzie Highway will extend up to the Arctic coast at Tuktoyaktuk, 1049 miles from the Alberta - N.W.T. boundary.

Northern Development Minister Jean Chretien stated "We are pressing on with the Dempster Highway on its way to the Mackenzie Delta. This important road is the key to the Yukon's participation in the growth of this important area." He foresaw Dawson as an important staging point on this route. Federal investment for natural resources in the Yukon is about 10 TIMES THE RETURN THE FEDERAL GOVERN-

MENT GETS FROM THE TERRITORY. While investment has risen from \$9 Million in 1966 to \$20 Million in 1968, Federal income from resources in the Yukon was \$745,000 in 1966 and \$977,000 in 1968. Some 150 senior representatives of business, government and education from all parts of Canada will be attending the first session of the MID-CANADA DEVELOPMENT CORRIDOR CONFERENCE at the Lakehead University 18-22 Aug., 1969. Focal point of their deliberations will be the 200-500 mile wide belt that girds Canada's middle north in a crescent pattern from Labrador to the Pacific and the Northwest Territories. Under discussion will be the challenges this belt offers, the challenges related to industrialization, to the human and environmental factors of urbanization, to transportation and communications and to finances and trade.

Among those addressing the delegates are Dr. O. M. Solandt, Chairman of the Science Council of Canada, Father John Page of the University of Manitoba,

Hon. Duff Roblin, executive vice-president of Canadian Pacific Investments, and J. C. Lessard, Quebec-Hydro.

The second conference session will be held in Aug. 1970, when recommendations and suggested courses of action pertaining to the main topics and the conference theme will be presented.

In between the two sessions, field trips to parts of the Corridor will enable participants to familiarize themselves with current environmental and working conditions as well as giving them an insight into the potential of the area. A field trip to Northern Scandinavia and Siberia is also being arranged in the spring of 1970 for the purpose of observing at first hand urbanization and industrialization achieved in areas which are comparable to or even more difficult than Canada's MID-NORTH.

The conference is being sponsored by 11 Canadian universities with an official convening Board that includes geographers, community and regional planning authorities, as well as economic specialists of the ONTARIO Government. Its chairman is Richard Rohmer, Q.C.

He has pointed out that Canada will have an additional 100 Million people 100 years from now. He insists that Canada today has the technological ability, the human resources and the wealth to embark on a planned program for the opening up, urbanization, industrialization and populating of the massive habitable sectors of the country in Mid-Canada, so that those 100 million will not have to remain huddled against the border of the U.S.

"We believe the concept of providing new environment and new opportunities for future Canadians in the Mid-North should be translated into a National Purpose (a will of the people) in the same sense as the building of the C.P.R. was in the 1880's" comments Mr. Rohmer.

## Burgess renews his attack on the CBC

Mr. Tom Burgess, Independent Liberal in the House of Assembly for Labrador West, sent the following telegram to Andrew Cowan, Director of Northern Services and Mr. George Davidson, President of the CBC, recently: "On two occasions during the past six weeks the Station Manager of CFGB, Goose Bay, Gordon Fredricks has set himself up as a self-styled censor of what, I as a representative of Labrador West in the Provincial Legislature feel to be information that the people whom I represent should be made aware.

"Since CFGB is the only local radio available in Labrador by which a representative can communicate with his constituents, I feel that a station manager who is more news conscious should replace Mr. Fredricks immediately. I am sure that the policy of the CBC in no way coincides with the partisan outlook of this individual in charge of our local radio station and request that the CBC take remedial action at

once, in order to protect the elected rights and duties of a representative of the people.

"A more comprehensive report will follow in letter form of these two incidents of the past six weeks and if necessary a petition of the majority of people in my district in support of a remedy in order that freedom of speech be protected in this so called democracy in Labrador."

Mr. Davidson, President of the CBC replied to Mr. Burgess' telegram, advising him, "that as in all news media, the local management reserves the right to edit material".

**Socials personals**

Mr. and Mrs. Hector Hussey have returned from vacation.

Ron and Mrs. Nippard, back from vacation on the Island.

Declan & Marg LaCour, of Wabush arrived recently from holidays.

Cec Chaytor, Manager of City Motors, and family returned from the sunny south, this week.

Reginald and Cathy Pottle celebrated their wedding anniversary August 15.

A bridal shower was held on August 13 for Miss Joyce Carter. It was organized by Mrs. Bernadette Bourgeois, Mrs. Nelson Avery and Miss Vera Avery. After card games and bingo there was a delicious lunch of salads and cold cuts. The shower was enjoyed by all. The bride-to-be received many lovely gifts.

Mrs. Matilda King accompanied by her daughter, Gladys, spent a two weeks vacation in Labrador City with Const. and Mrs. Gerald McGuire.

Bruce Webb returned from vacationing with his family in Newfoundland.
