The Aurora

The weekly newspaper of Labrador West

Vol. 1 No. 33

PUBLISHED IN LABRADOR WEST, WEDNESDAY, NOVEMBER 19, 1969

Price 10 cents.

THE FIRST STOP - Labrador West had two distinguished visitors recently when the Ambassador to Canada from the Netherlands, His Excellency Theodorus H. Bot and C. Bellaar Spruyt, Consul General for the Netherlands arrived in Labrador City on their first stop of a tour through the Province of Newfoundland and Labrador. The two dignitaries are shown here on their arrival November 10. Centre, is Bill Wortleboer, who represented the chamber of commerce to welcome the visitors. Mr. Bot and Mr. Spruyt left the following day to visit the Churchill Falls site - (Aurora Photo).

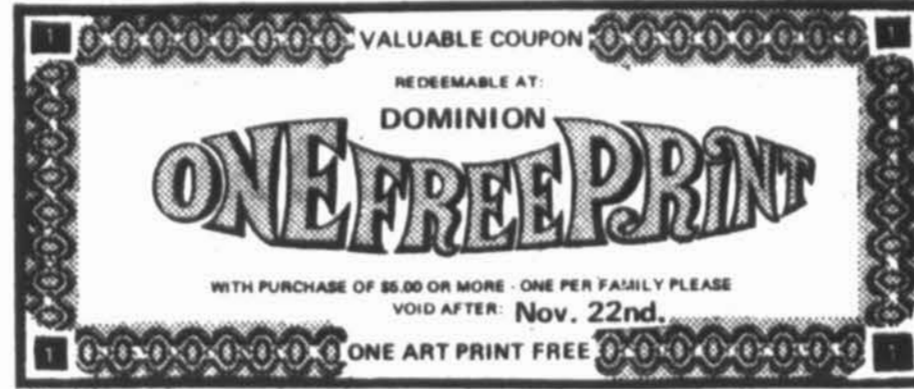

CONTEST WINNERS - The Royal Canadian Legion in Wabush sponsored a Remembrance Day coloring contest in Labrador West, entitled "The story of a flower." Winners from the amalgamated section of the J.R. Smallwood Collegiate are left to right - Kaleem Mohd, first prize; Debbie Canning, second; Jamie Purchase, third; winners from the Sacred Heart section are Renee Rouleau, Renee Demers and Mary Hearn, first, second and third-place respectively - (Aurora Photo).

New Boeing 737's soon to enter EPA operation

Eastern Provincial Airways announces that negotiations have now been completed, and arrangements made final with the Boeing Aircraft Company in Seattle, Washington, for the acquisition of two new Boeing 737 Twin Jet Airliners for service on the airline's Atlantic Provinces Routes. The jet airliners, which will carry 109 passengers, will be powered by Pratt & Whitney JT8D-9 engines, and fully equipped with the latest navigational systems and cabin service amenities. The aircraft will be delivered to EPA on November 25th and December 15th of this year. During the past year, EPA held extensive negotiations with a number of aircraft

manufacturers for a suitable aircraft type to replace its piston engine and turbo-prop equipment on its main routes. The Boeing 737 was finally selected because of its larger fuselage configuration which will handle greater cargo and mail loadings, and its roomier cabin which offers greater passenger appeal. The aircraft also operates well on the smaller airports into which the airline operates within the region. EPA will operate the new jets on its regional mainline services, a Southern one which serves St. John's - Gander - Deer Lake - Halifax - Charlottetown and Montreal, and a Northern one which serves the same Newfoundland points, along

with Goose Bay, Churchill Falls, Wabush and Montreal. Permanent flight schedules have been set up effective December 1 which will feature Westbound morning flights through the area to Montreal, and Eastbound late afternoon and early evening flights through the area to Newfoundland. The airline,

through its Market Research Experience, has concluded that this pattern of operation offers prime departure and arrival times to Atlantic Provinces travellers, who make up the bulk of the airline's customers. In line with the new aircraft acquisition and flight schedules, permanent jet maintenance facilities will be set up at the airline's Headquarters base at Gander, Newfoundland. Boeing Jet specialists will train EPA Maintenance crews and supervise

maintenance procedures at Gander for the first part of 1970. EPA has actually operated a leased Boeing 737 since Mid-Summer on some of its mainline services. The aircraft was leased from United Airlines and maintained by Nordair in Montreal. The experience gained on the aircraft, along with the very favorable reaction from the public and flight crews, was partially responsible for the decision of the airline to commit itself to this type of equipment.

Great men are they who see that spiritual is stronger than material forces: that thoughts rule the world

If absence really made the heart grow fonder, a lot of people would miss church more than any place in the world

Mind teaser

Three typists working together can type a certain manuscript in 8 hours. One of these typists could do the entire job alone in 20 hours, and the second typist could copy it alone in 24 hours. How long would it take the third typist to copy the manuscript alone?

ANSWER

30 hours. The one typist can do 1/20 of the work in one hour, and the second typist 1/24 of the job in one hour, while all three can finish 1/8 of the work in one hour. Subtract the sum of 1/20 and 1/24 from 1/8, and divide result into 1.

The Aurora

Published every Wednesday at Labrador West, Newfoundland and Labrador and printed by Robinson-Blackmore Printing and Publishing Limited, O'Leary Avenue, St. John's, Newfoundland. Subscription rate Canada and Foreign \$6.50. Mailing address, P.O. Box 2090, Labrador City.

Editorially speaking

THE "UNJUST SOCIETY": Well readers we've gotten it again. Over the past four or five years no wage group in Canada has been hit as hard (tax-wise) as the \$9-15,000 per year group (you and I). Ottawa and St. John's haven't finished yet. The recent "White Paper" (I'd like to call it a 'Brown Paper') on taxation released by E. Benson is another "nail in the coffin." Let's look at some of the rate changes. Edgar "Shoe Clerk" Jones, income \$4,000 per annum, present tax \$331.00; proposed tax \$219.00 (decrease \$112.00 or 34%). Edgar "Labrador Miner" Smith, income \$12,000 per annum, present tax \$2,538.00; proposed tax \$2,696.00 (increase \$158.00 or 6%). Edgar "Cabinet Minister" Benson, income \$30,000; present tax \$10,655.00; proposed tax \$10,688.00 (increase \$33.00 or .3%). Is this the "just society?"

CAPITAL GAINS: So you've managed to save a couple of thousand dollars and have invested in a new Canadian company. The corporation prospers and you make \$1,000.00 No you don't! (Now we don't object to a reasonable tax, say 10% capital gains.) However "Uncle Edgar" (that's our \$30,000 Cabinet Minister) has octopus-like tentacles which have spread throughout the land, and Edgar "Labrador Miner" will have to pay nearly \$400.00 of his profit on his investment. But if he purchases a block of houses in Ottawa his tax might be only \$100.00 Not very patriotic but do you believe that a Government that raises taxes on a \$12,000 wage earner 2,000% more on this bracket,

SMALL BUSINESS: "Corner Edgar" the small business man really gets

clobbered. After reading this "brown paper" it seems it just isn't worth while to operate a small business. However "Souther Sam" who has a large corporation is hardly touched at all by the "Unjust Society."

PRIMARY INDUSTRIES: Stack up this governments' support for agriculture against that for mining, and it is not too difficult to see which tax dollars gave Canada the greatest return. For every tax dollar Canadians poured into the mining industry they got a little more than \$100 in productive output; for every dollar they spent on agriculture they generated about \$20 in gross farm income. And mining was coming on strong, far out-pacing agriculture in growth and value of exports, in wages and salaries provided to its workers, and in tax revenues generated. Of course all this was done to assist Northern Development and a Fair-shake for every Canadian.

SELF-DESTRUCTION: Well "Mr. Phelps" The P.C.'s (Paralysed Cops) have done it again. They have taken the road of an "Impossible Mission" and from recent news just plain refuse to offer an alternative to "Dr. No." On the 10th of November "Numero Uno" triggered his self-destruct device. What Next! Will it be "Lundrigan's Lovers", "Moore's Magicians," or "McGrath's Marauders?" We will have to wait for the 1970 version of "Lead-Convention."

By the way, a comment on the 1969 production of "Leadership Convention" (starring Dr. No and a cast of 1700.) This columnist really thought it a "bit much" for the people from this area who attended "the

LABWAB

T-Dor is convinced that we should, every now and then acknowledge in these pages various items of trivia we encounter in our daily lives. In other words we should write a sort of classified section which would look like this:

WANTED: The person or persons responsible for the lousy design of the top of shredded wheat boxes.

OPPORTUNITY AVAILABLE: In Labrador City or Wabush for a shoemaker. He doesn't have to be good - just here.

WANTED: Kids to sell papers, shovel or blow out driveways, cut lawns, as a means of buying hockey and baseball uniforms.

WANTED: A room directory in some bunk-houses to enable finding where a fellow lives.

WANTED: Express check-outs in supermarkets which really are express check-outs.

MILLION DOLLAR REWARD OFFERED: To the person or persons capable of bringing about the demise of cowboy movies.

WANTED: More of Charlie Jubber's French bread in Wabush, at any rate.

WANTED TO BUY: Thread, sewing materials, handicraft and art supplies. Also Stationery supplies. URGENTLY REQUIRED: A telephone system whereby one may call from Labrador City to Wabush or vice versa on the first try.

WANTED: Gumption enough by most of us to lay charges in court against the next fellow we catch strewing refuse beside our streets and roads.

PERMISSION REQUESTED: To shoot on sight that fellow who parks his car in Wabush Airport parking area right slap bang in the middle and leaves it there while he waits for his Uncle Nedric or whoever, indoors.

WANTED: An explanation of that bright light and blue patch in the sky one day last week.

BUS WANTED: To run evenings, Saturdays and Sundays from one end of Labwab to the other. Suggest driver owned and operated, and not of school bus type.

circus" to speak as if they represented the majority of voters. Let's look at the real facts. There are approximately 7,000 eligible voters residing in Western Labrador. According to available information organizers of the Liberal Party sold approximately 700 cards to residents. At meetings held here about 400 attended and voted; with Dr. No's slate winning 200-300 votes. 7,000 eligible voters, 280 voting for Dr. No, that's 4%.

Personals

Congratulations to Pat and Elizabeth Heptitch of Labrador City on the birth of a baby boy on November 5th at the Corner Brook Western Memorial Hospital. The baby weighed 7 lbs. 6 ozs.

Happy birthday to Miss Christine O'Leary of Wabush who will be 11 years old on November 23; also to her sister Teresa who will be eight on November 25. They are the daughters of Mr. and Mrs. Paul O'Leary.

Happy birthday to Paula

We must not forget a few enquiries we make every now and then. For example, why is it that we have sidewalks but find them unused by mothers and baby carriages? How come so many people leave grocery carts all over the place instead of returning them to the store entrance? Whatever happened to old fashioned patriotism, and do today's kids still sing the national anthem in school on a regular basis? If houses cost so much to build in this part of the country, and if the basement is so expensive to dig, form and pour, then why have basements at all? Everyone wonders what to do with the millions of non-returnable plastic and glass bottles. Why not incorporate them into concrete walls and floor slabs? The air space in each bottle could be a convenient insulation material. Why is it that engineers and physicists can dream up technology to put men on the moon, but cannot keep buildings in this part of the world from being over-heated?

Has anyone ever estimated how much corporate tax is paid by the mining interests in Labwab, how much corporate tax is paid by the smaller service industries, how much personal income tax is paid by all of us, added it all up and weighed it against the cost of THE ROAD? Perhaps that figure could be our biggest lever if well publicized.

There is a certain record played on Radio G-Bay concerning an hilarious fellow attending a hockey game. Someone break it, puleeze!!!!!! Speaking of records however, we should like to know who picks them out at that station, because many of them are excellent believe it or not. Why do our various snow plowing agencies try to plow roads and streets without that familiar marker, the small tree with a few branches at the top, to guide them? Why is it that a person who dies an accidental death in Churchill must be flown here for an autopsy, then back to Churchill a day or so later, then on to The Island while a grief stricken family waits? Particularly we ask why, knowing of the irregular service EPA has been plagued with lately due to poor weather, and knowing that a doctor could as easily be found at an Island destination.

Enough criticism for one day, except for one final word to the Big Bell. When are we to get a new phone book, and may we find the Wabush Fire Department and Clinic in its pages?

So there:
T-Dor.

Winter who was six years old November 11. Paula celebrated her birthday with a party at her home on Anderson St., Wabush.

MOVING TO CAPITAL
Mr. Bill Parsons, International Representative for the United Steel Workers of America in Labrador West, will be leaving shortly to take up residence in St. John's. Mr. Parsons has been appointed International Representative for the island of Newfoundland, with offices in the Capital City.

On the local scene

The regular games night will be held at the following places in Wabush: The Catholic Church basement on Wednesday, November 19; the Anglican Church basement on Friday November 21 at 8:30; the Wabush Recreation Center on Saturday, November 22.

Back in town from a visit to St. John's is Mrs. Shirley Jennings, District Girl Guide Commissioner for Wabush. Mrs. Jennings attended the Girl Guide Commissioners' Conference held there from October 17th to 18th. During her visit she was joined by her son Garland Jr. who flew in from Nova Scotia, where he attends King's College School at Windsor. His friends at Wabush will be glad to learn that Garland is enjoying life at

his new school.

The Presbyterian Church Women of Wabush will hold a Bazaar and afternoon tea in the Church basement, Whiteway Drive on Saturday, November 22 from 3 to 6 p.m. (Please take note of the time). There will be a table of home made cakes, cookies etc., and a wide selection of knitted and hand made gifts to please the whole family.

The Wabush Catholic Ladies will hold a Bazaar of knitted and hand made goods and a bake sale in the Wabush Shopping Plaza on Saturday November 29.

The following officials of Wabush Mines were in St. John's recently to attend the Annual

Conference of the Nfld. Branch of the Canadian Mining and Metallurgical Association: Messrs. R.C. Baxter, O.W. Borgeson, Ken Hubbard, John Ambler, Ken Bazilsky, K. Rauchberger, Nelson Sherren and Jerry Lord. The above mentioned gentlemen were accompanied by their wives.

Anglican Church Women's Association drawing for the fur jacket has been postponed until the 1st of January 1970 due to not having sold enough tickets.

The Anglican Church Women's Association of Labrador City will be holding their monthly meeting November 25 (Tuesday) at 8:15 in the Church basement. Rev. William Bellamy will be the guest speaker. New members are welcome.

The Badminton Club meets every

Wednesday night from 7:30 to 10:30 p.m. at the Notre Dame Academy Gym, and also Sunday afternoon from 1:30 to 5:00 p.m. at the Collegiate Gym. Babysitting available on Sundays only. New members and beginners are welcomed. For further information call 944-2079.

The Aurora records with regret the deaths of Donald McParland, former President of Brinco and seven other people: Eric G. Lambert, John Lethbridge, Fred E. Ressegieu, J. Herbert Jackson, Arthur C. Cattle, pilot Jim McLeod and co-pilot Robin Elley. The men died when their de Havilland 125 jet crashed at Smallwood mine on a flight from Churchill Falls to Wabush. The accident occurred Nov. 11.

What's the latest on our airlines?

EPA MOVES INTO THE BLACK BUT STILL GETS HELP

After years of losses, Eastern Provincial Airways Ltd. finally turned in a profit of \$76,000 in 1968. Dominion Bureau of Statistics figures show the company made \$76,000 on revenues of \$9.1 million. In 1967, a loss of \$611,000 was recorded on revenues of \$7.5 million. The carrier received federal government subsidy payments for both years. In 1968 EPA carried 136,377 passengers (131,480 in 1967) and flew 36.4 million passenger miles (30.7 in 1967). Cargo statistics were identical for the two years, 14.7 million pounds of goods and 2.8 million ton-miles.

Having been wooed in the past year by both Quebecair and Nordair Ltd., EPA apparently will face the future at least content to lease jet equipment in co-operation with Nordair. The plan which came close to reality would have seen Nordair purchase all Eastern Provincial stock and go public, with EPA shareholders acquiring a substantial interest in Nordair. The name would have been retained, operating as a wholly owned subsidiary. The plan, now shelved because of stock market conditions, is expected to be revived, but under different terms.

EPA has the use of a 113-passenger Boeing 737 jet through its arrangement with Nordair and also has three 41-passenger Handley - Page Herald turboprops, two convertible passenger - cargo Aviation Traders Corvairs and several McDonnell - Douglas DC-3s and 4s.

The introduction of jet equipment which made it necessary to base and increased number of pilots and stewardesses in Montreal, prompted Premier Smallwood to complain several months ago that EPA was planning to "practically phase out" its Newfoundland operations. (The Newfoundland government has lent Eastern Provincial \$6 million.) "If we take out that six

million dollars," Smallwood stated, "They won't have a nickel left." He said the loss of EPA would leave Newfoundland with "no hope of holding Labrador." While declining detailed comment, airline officials denied the premier's allegation. Political observers were quick to point out that John Crosbie (brother of EPA chairman Andrew Crosbie) was one of Mr. Smallwood's leadership challengers.

At present Eastern Provincial Airways flies 737's to St. John's, Halifax, Deer Lake, Charlottetown, Montreal, Gander, Goose Bay, Churchill Falls, and Wabush. Eastern Provincial operates Heralds to Magdalen Islands, Charlottetown, Moncton, Summerside, New Glasgow, Halifax, and Montreal. Corvairs service St. John's, Gander, Deer Lake, Goose Bay, and Churchill Falls. DC-3s between Moncton, Charlottetown, Seven Islands, Goose Bay, Gander and St. Anthony.

QUEBECAIR CONTINUES TO LOSE MONEY

Quebecair remains an enigma among Canada's regional airlines as it continues to lose large amounts of money. It has been hoped the solution might lie in new business direction and application for new routes. Quebecair is owned by Corpex, controlled by the Brillant family. However, Neil Gough, President of Quebecair since July 1968 resigned in September past. He had been driving hard to re-equip the airline, acquire longer-range routes and join forces with another carrier.

MIND TEASER

What number is there whose square is 160 more than the product of two other numbers, one of which is 2 greater and the other 6 less than the original number?

ANSWER

37. Subtract product of 2 and 6 from 160; divide result by the difference between 6 and 2.

According to Dominion Bureau of Statistics figures Quebecair had a \$1.4 million deficit in 1968 on revenues of \$6.3 million. The final loss was reduced to \$630,000 by a federal subsidy. The previous year's loss, after Federal payments, was \$585,000 on \$5.5 million in revenues. The airline boarded 189,264 passengers in 1968 (185,481 in 1967), operated 55.6 million passenger miles (50.9 in 1967), carried 4.4 million pounds of goods (4.1 million in 1967), and recorded 818,326 ton miles (720,764 in 1967). Two 79-passenger BAC (British Aircraft Corp.) 1-11 jets obtained last spring now operate on QA routes to Montreal, Quebec City,

Saguenay, Rimouski, Mont Joli, Baie Comeau, Seven Islands, Churchill Falls, and Wabush. Fairchild Hiller Corp. F-27 turboprops, carrying 36 passengers, are flown into centers such as Murray Bay, Gagnon, and Schefferville. And 20-passenger de Havilland Twin Otters serve a large number of other communities on the route patterns of subsidiary companies.

Quebecair benefitted more than any other regional carrier from last spring's strike against Air Canada. The newly acquired BAC's were pressed into continuous service between Montreal and Toronto. The government's recently announced boundaries for

regional carriers gave Quebecair "all of the province of Quebec east of Montreal." Before resigning over a disagreement on financing, Gough said the company would "strongly contest" the policy. It would perhaps be too much to expect Air Canada to withdraw from Quebec City. But Quebecair officials are hopeful of acquiring Air Canada's Montreal - Trois Riviers - Quebec City route, as well as exclusive rights on routes from Montreal to Saguenay and Seven Islands on which it now competes with the national carrier. (The Air Transport Committee recently held out hope for new non-stop rights from Montreal to Seven Islands.)

NORTHERN NEWS & VARIETIES

LABRADOR CITY, NFLD.

Here 'n' there

ELECTRONIC DARTS: A self - scoring dartboard has recently been patented in Canada. Electrical switches are mounted on the board so as to be closed on impact of a dart on the board. When each such switch closes, a counting sequence of a relay is initiated, the count corresponding to the score assigned to the impact area. Such scores are automatically totalled and displayed.

OFFICE CRIME: A grim picture of dishonesty in business was sketched recently by Mr. N. Jaspán, president of Jaspán Associates, a New York - based management engineering firm. Mr. Jaspán told a meeting of the Canadian Wholesale Drug Association that dishonesty is usually a byproduct of mismanagement. He gave these estimates, of the extent of employee dishonesty in Canada:

- (a) Employees steal more than \$1 million a day in cash and merchandise, with a substantial amount attributable to supervisory and management personnel.
- (b) An estimated 30% of business failures result from employee dishonesty.
- (c) Inventories manipulated to show a better performance result in companies paying taxes on profits they have not earned.

NEW WASHDAY MIRACLE? Enzymes' share of the Laundry market grows, but effectiveness of product is disputed. The contenders: Here are the principal laundry detergents sold by the U.S. three major soap companies, with their approximate share of the market as indicated by a recent Nielsen survey: Procter & Gamble, Tide XK (enzyme) 22%, Gain (enzyme) 7.5%, Bold (enzyme) 7%, Cheer 5%, Oxydol (enzyme) 3%, Duz 2%. Colgate - Palmolive, Cold Power 5%, Ajax (enzyme) 5%, Fab (enzyme) 5%. Lever Bros. All 6%, Breeze 3%.

HAPPY VALLEY: In 1955, a Local Improvement District Committee was appointed and in conjunction with a town manager handled the town's affairs for several years. The first town manager was Harry Paddon, son of the late Dr. Harry Paddon and brother of Dr. Tony Paddon, both of whom are well known for their work with the Grenfell Mission in Labrador.

In 1961, Happy Valley was incorporated as a town and in November of that year, the first town council was elected by the people. Leon Cooper became the first mayor and was re - elected again in 1965. He was not a candidate in last week's election.

THE GOLD SOD: The Irish Republic (population: 2.9 million) is stepping up efforts to attract Canadian industrial investment. Through its Industrial Development Authority in Dublin, Ireland offers direct grants of up to 60% of the full worth of new plant's fixed assets, and a 20 year tax holiday on profits from exported goods.

Mr. C. Loughney, director of the authority, was in Montreal and Toronto recently making that pitch. He said that Ireland is just beginning to

look to Canada for investment, in the past assuming that most Canadian companies with money to invest were controlled in the United States. Only a handful of Canadian industrial companies are now in Ireland, although Canadian mining interests there are well known.

OFFICE COPIER: Executives who use the machines for non - business purposes encourage others to follow suit. One San Francisco bank was recently embarrassed when a secretary was discovered duplicating Playboy magazine for her boss. "Our upper management men freely admit they use company copying equipment in preparing their income tax returns," says a spokesman for a major Toronto scientific concern. One common abuse: Resumes run off after hours by job - hunting executives.

Some companies limit access to those with special keys. But says an executive of a large Alberta oil company which considered and dropped a plan to use keys, "Something like this can constipate your whole operation." Of greater concern than employees who "copy the PTA minutes," grumbles a Vancouver executive, is the growing number of officials who "broadcast" copies of 20 page reports to other executives who neither read or want them.

PLEASANT AND REFRESHING AND MODERATE? Canadians will drink 13 million barrels of beer, that's 2,600 million pints, this year, says P.W. Oland, Chairman of the Brewers Association of Canada. This sales volume means an increase of 6% over the 1968 figure. For governments it means a corresponding increase in their excise tax take, \$252 million last year. Just how important is the brewing industry to the economy? Note these figures:

It gives 14,000 year - round jobs, pays \$100 million in salaries and wages, spends \$115 million on raw materials, packaging, freight, fuels, and invests (in 1969) \$42.5 million in capital and repair expenditures.

FOOTBALL COMMENTARY: The story is an example of football commentators' mania for statistics, regardless of whether they mean anything. This sometimes reaches the point where sportcasters at the games will excitedly say "Jackson (Russ, Ottawa) got eleven touchdowns this season, and if he gets another today, he'll have twelve." The commentators' preoccupation with statistics must affect the thinking of the players. For instance it was reported recently that quarter-back Roman Gabriel of the Los Angeles Rams had complained that Baltimore supporters are so noisy that "only 30% of his signals were heard by the Rams in Baltimore last year." This, the writer explained, is because there are 60,000 fans in Baltimore "all dedicated to lousing up the opposition." He did not say how many fans there are in Baltimore who are not dedicated to lousing up the opposition, but it follows that if 60,000 fans can louse up 30% of Gabriel's signals, 200,000 fans should be able to louse up them all.

mind teasers

A merchant sold 95 items, some of them at 98 cents each and the remainder at \$1.96 each. If his total receipts were \$143.08, how many items were sold at each price?

ANSWER

44 at 98 cents and 51 at \$1.96. Subtract 143.08 from the product of 95 and 1.96; divide by the difference between 0.98 and 1.96 for the number of 98 cents.

If 9 less than 6 times a certain number minus twice the number equals 7 more than twice the number, what is that certain number?

ANSWER

8. Letting X equal the number, form equation: 6X minus 9 minus 2X equals 2X plus 7. Solve for X.

Busy period for Legion

The Wabush Branch of the Royal Canadian Legion had a very busy week November 7 to 11.

On Friday, November 7 the Volunteer Fire Brigade held a very successful Fifth Annual Ball.

On Saturday November 8 they received a visit from the Provincial Command Executive in the persons of Mr. Kit Scott, President; Mr. Al Harvey, 1st Vice - president; Mr. E.P. Moakler, Treasurer; and Mr. Hugh Connors, Secretary.

On Monday November 10 the Ambassador and the Consul General of the Netherlands paid a surprise visit to the Club. The

two dignitaries signed the visitors' book and talked informally to those present. It was indeed pleasing to receive this impromptu visit from the representatives to Canada of her Majesty, Queen Juliana, and a special joy to Mr. Pete Kanis, Club Manager, whose parents came from The Hague.

The Legion Branch is pleased with the turn out for the Memorial Day Service at the War Memorial on the morning of the eleventh. Apart from the Legionaires and the Ladies Auxiliary, the Sea Cadets, Boy Scouts, Cubs, Girl Guides and Brownies also attended.

Ski clinic is held

Although the weather was far from what is needed for skiing, the Smokey Mountain Ski Club held a coaches and racing clinic at the Club last weekend. It had been originally planned to have candidates in from outside and also to spend the majority of the time in practical sessions on the slopes but this had to be put off and lecture sessions were held at the Lodge.

Rene Beauchamp of Montreal recently appointed head instructor for Eastern Canada by the Canadian Ski Association was chief instructor and he passed on valuable information to all people who attended.

The executives have not given up hopes for a practical session and hope

to arrange for one when the snow returns.

USING PUMICE

An inexpensive blackboard eraser makes a very efficient pad when rubbing down a finish with pumice. It will do the job easier and faster than a felt pad usually used for this type of work. Its stiff back provides a more comfortable grip and prevents the curling commonly experienced when using the ordinary felt pads.

CORPS PROMOTIONS - On October 28 six promotions were made at the regular parade of RCSCC Labrador in the Recreation Center at Wabush. Joe Boulet and Alan Lawrence from Leading Cadet to Petty Officer second class. Monte Antle, Wayne Barron, Robert Butler and John Hart from Able Cadet to Leading Cadet. Pictured above is John Hart receiving his certificate promoting him to the rank of Leading Cadet. Making the presentation is Mr. William Luby, Secretary of the Board of Directors of the Wabush Recreation Association, sponsors of the Corps. Mr. Luby made the presentations on behalf of Mr. Joe Ansara, Chairman of the Recreation Board, who was unavoidably detained. Also present in the above picture to the right of Mr. Luby is Captain D.A. MacIntyre, Commanding Officer of the Corps. In the immediate foreground is Lt. R.J. Butler, Executive Officer. To the rear of the Commanding Officer is L/C Monte Antle. Immediately behind Lt. Butler is the Corps' flagman L/C Wayne Barron. RCSCC, having been given a new home in Wabush's \$900,000 Recreation complex, is gradually incorporating into its training schedule many of the facilities available in the center. Included in these are swimming, basketball and volleyball. Any boy in the area who was 13 years old before September 1st and is interested in becoming a sea cadet should see Capt. MacIntyre any Tuesday night at the Recreation Center between 7 and 9 p.m.

Pianist gives evening of "musical delight"

BY CONCERT-GOER

On November 7 the Community Concert Association inaugurated the season 1969-70 with the first concert presenting the pianist "Anthony Di Bonaventura."

From the very first notes of Beethoven's sonata in D Major the audience felt the "maestria" of the soloist whose dexterity and caressing touch on the piano are remarkable.

Next on the program was Chopin's delicate and refined music. With a perfect combination of technique and soul-searching sensitivity, the pianist communicated to the listeners the emotion of the poetic and melancholic themes of Chopin.

The Spanish Dances with a more vigorous rhythm, and more optimistic theme, enhanced the enthusiasm in the audience and following Franz Liszt's Waltz-Impromptu in A flat Major, and Hungarian Rhapsody No. 10, built the "crescendo" of thrill which was expressed by a strong and resonant final applause!

On the insistence of several cries of "Encore" Anthony di Bonaventura very graciously played "hors programme" Rachmaninof's prelude.

A social gathering with refreshments in the All purpose Room, closed this evening of musical delight.

Sharron-O'Brien wedding

A very pretty wedding was solemnized at Carol United Church, Labrador City on October 17, Rev. Mayberry officiating, when Audrey, daughter of Mr. and Mrs. William O'Brien of St. John's became the bride of Robert, son of Mrs. and the late Douglas Sharron of Botwood, Newfoundland. The bride, given in marriage by Mr. John Poole, looked lovely in a full length white gown of brocaded satin, with a wide sash at the waist. Her veil was shoulder length of nylon net,

held in place with two carnations. She carried a bouquet of red roses. Mrs. Shirley Langdon was matron of honour, while the groom was attended by Mr. Willis Elms. A reception was held at 71 Bowater Drive, Wabush. The young couple have taken up residence at 41 Anderson Street, Wabush. Out of town guests included the groom's mother, Mrs. Bridie Sharron of Botwood. Best wishes for many years of happiness.

this week in ASTROLOGY BY CARL PAYNE TOBEY ILLUSTRATED BY DEGRAZIA

PAST

ASTROLOGICAL SYMBOLS IN BIBLE

And I saw when the Lamb opened one of the seven seals, and I heard one of the four living creatures saying as with a voice of thunder, Come. And I saw, and behold, a white horse, and he that sat thereon had a bow; and there was given unto him a crown and he came forth conquering and to conquer. (Revelations 6:1-2)

The Bible is filled with astrological symbols, but they have been translated by people without knowledge of the old astrology. In the above passage, the bow indicates possible association with Sagittarius when we consider the paragraphs that follow it, but we can't be certain. The word creatures sometimes meant the signs of the zodiac. (Continued)

FUTURE

★ TOBEY'S PREDICTION:

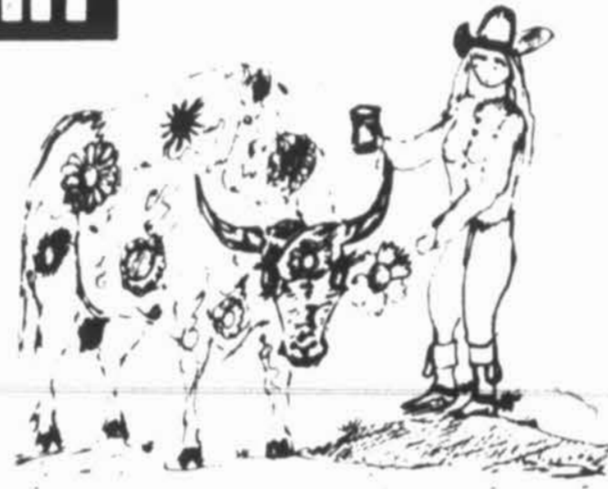

Somewhat radical for the romantic. There can be very strong drives and the sex factor is powerful but it is not too harmonious or lasting. It can get off to a good start, burn furiously, and then cool. New ideas and concepts can have great possibilities but there is much need for perfection and development.

© 1969 by NEA, Inc. 11-23

THE TAURUS PLAYGIRL

PRESENT

She really has a very loving nature but she can be discreet. She can play hard once started but she is apt to be lethargic. She likes the luxuries of life but she might consider the wide-open spaces as luxurious. She is more at home with nature than with the artificialities of city life. If you have a big country estate or a ranch in Texas, tell her about it. Her imagination will go to work and she may visit you. She'll be happy around cattle and remember: the bull is her symbol.

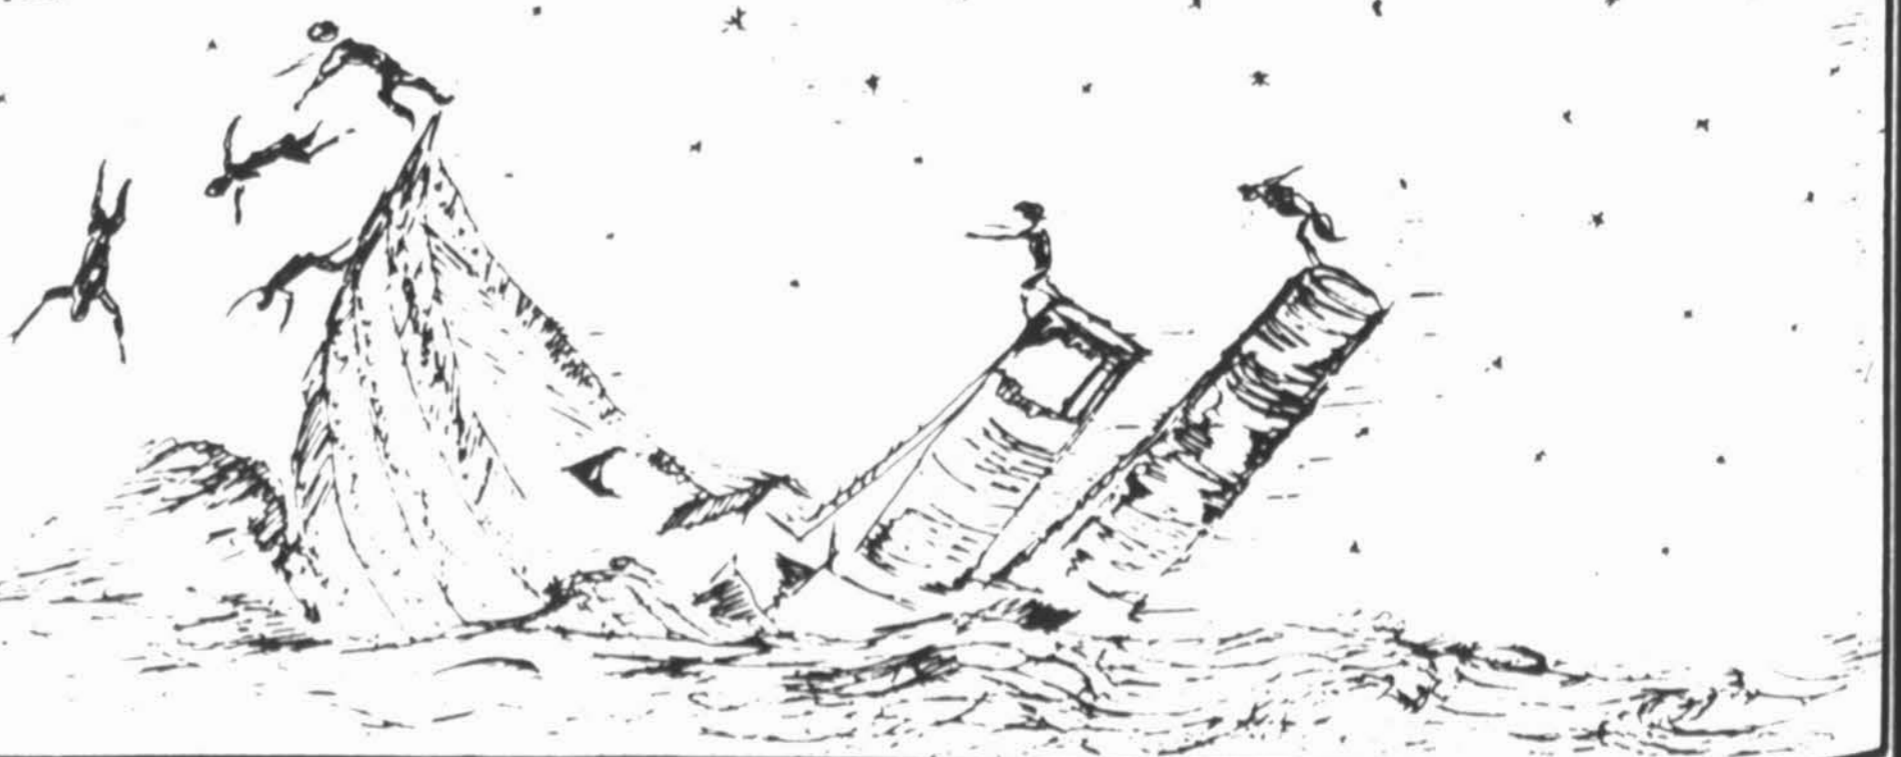

YOUR WEEK AHEAD

- ♈** **ARIES** Mar. 21-Apr. 19 *Early week best. Wednesday and Thursday doubtful. Protect interests. Saturday more creative.*
- ♉** **TAURUS** Apr. 20-May 20 *Generally favorable until mid-Friday. After that, slow down and give first attention to home.*
- ♊** **GEMINI** May 21-Jun. 21 *Sunday—Tuesday harmonious for travel, starting the new, handling important matters. Entire week good.*
- ♋** **CANCER** Jun. 22-Jul. 22 *Take the initiative, push your plans this week. Wednesday through Friday best. Judgment more reliable.*
- ♌** **LEO** Jul. 23-Aug. 22 *Conditions grow better all week. Friday and Saturday are best days for accomplishing objectives.*
- ♍** **VIRGO** Aug. 23-Sep. 22 *Whole week shows improvement as you lead up to your best days of the month. You can clean up that work.*

- ♎** **LIBRA** Sep. 23-Oct. 22 *You can afford to push and go forward with your own plans this week. A good week to design your future.*
- ♏** **SCORPIO** Oct. 23-Nov. 21 *Watch out what you do on Sunday. Doubtful for travel. Conditions improve gradually from Monday on.*
- ♐** **SAGITTARIUS** Nov. 22-Dec. 21 *Starting Sunday evening through Tuesday, you are passing through inauspicious period. Better thereafter.*
- ♑** **CAPRICORN** Dec. 22-Jan. 19 *Slow down after Sunday. Wednesday and Thursday you should exert special caution. You can make errors.*
- ♒** **AQUARIUS** Jan. 20-Feb. 18 *Monday and Tuesday creative and independent. Late Friday and Saturday hazardous. Avoid traveling.*
- ♓** **PISCES** Feb. 19-Mar. 20 *Monday and Tuesday doubtful with authorities. Protect family interests. Wednesday-Friday more creative.*

BIRTH OF CLOCKS

While it is simple to measure your latitude by observing the North Star, as I indicated Nov 9, it is impossible to determine your longitudinal position on the earth unless you know the time. Thus, frantic efforts to perfect the first clock came as a result of its need by the mariners. At sea, you can tell your longitudinal position by observing a particular star or planet pop over the eastern horizon or cross the zenith, but only if you know the exact time. If your watch was in error by 4 minutes, it could throw your position off by 75 land miles.

On writing letters (an editorial viewpoint)

It has been said that letter writing is the gentlest of all the arts. If this is the case, then an awful lot of Newfoundlanders are not very artistic!

Communication through writing is not easy because a reader cannot pick up expressions or tones in the voice which mean so much in oral communication. For this reason, we must be careful how we write letters because our meaning can be turned completely about - face with poor use of words and phrases.

We have heard only lately, from several quarters, that Newfoundland people are not good letter writers. It seems a little incredulous that a group of people should be termed poor letter writers, but if you dig into the subject a bit, you'll easily find opinions that prove this overall flunk-out.

It is not that Newfoundland people are not literate enough to write a good letter, it's just that they "talk through their pens." In other words, they put things down exactly as they would say them instead of realizing that they are writing letters and that calls for a little wiser use of words.

Because we're so straightforward in our letters, we sound blunt and crass. A simple business letter from an outport can often sound like a blanket condemnation of some outfit or a clarification of some misunderstanding can sound like a declaration of war!

The written word promises to be with us for a long time yet, so it won't do any harm for us to spruce up our letter writing. And remember, that old cliché about the pen being mightier than the sword, makes quite a bit of sense!

The youth column by Sharon Bryans

On October 31 the Labrador City Collegiate Student Council and Cheerleaders sponsored a Hallowe'en Dance. The dance was a great success; everyone had a good time dancing to the music of the Krystals. The Student Council of Labrador City Collegiate has been holding activity nights Saturdays, which will continue throughout the year. The Activity Nights are open to all young people in Labrador City and we hope will be enjoyed by all. The activities include a sports program in the gym as well as a Coffee House type atmosphere in the all-purpose room.

At the moment there are a few students at the Collegiate who are wearing the new longer hair styles and I am surprised that the authorities have not discouraged them. This is an indication of progressive attitudes of School Authorities at Labrador City Collegiate. I am very glad that the School Authorities here have realized that the personal appearance of the student has nothing to do with his scholastic attitude whereas in more cosmopolitan parts of Canada this is a very controversial issue in many High Schools.

The Student Activity passes now being sold at the Collegiate by the Student Council will be used as a pass into all Student

Council sponsored activities in Labrador City. These passes are also available to Wabush students for 50c and non-students for \$2.00. We intend to use these as compulsory passes to provide more organized activities for the young people.

The Curling Club of the Labrador City Collegiate had a Bonspiel on Saturday November 15th and in the evening they held a dance with music provided by the Chevelles.

This week the Students of Labrador City Collegiate hosted some students from Sept Iles. Many of the students stayed in homes of the students from Labrador City Collegiate. The Student Council of Labrador City Collegiate entertained the Sept Iles students with a movie which was shown at the gym of the Labrador City Collegiate on Wednesday night. The students from Sept Iles observed the way of life of the people in Labrador City. The students of our school also learned a great deal from the students from Sept Iles.

The Student Council of the Labrador City Collegiate is now in the process of forming a new constitution and one of the articles of this constitution is already being enforced. This article concerns the membership class representatives in the Student Council.

These representatives are allowed to contribute ideas and opinions at the meetings of the Council. This will enable the Student Council to consider the desires of the students in all government business. The Student Council of Labrador City Collegiate has also comprised a list of rules to be enforced at all dances sponsored by the Council at Labrador City Collegiate. These rules apply to all persons attending these dances and consist of the following:

1. All students must show their activity pass upon request.
2. All non-students wishing to attend must also show their activity pass.

3. Students under suspension or expulsion are not permitted on the premises.

4. Anyone causing a disturbance shall be dealt with accordingly.

5. Everyone is expected to respect school property and to refrain from damaging same.

6. Alcoholic beverages are not permitted on the premises.

7. Smoking is permitted only in the all-purpose room.

8. Everyone must confine their activities to the immediate area of the all-purpose room and the gym. No one is permitted in other parts of the school except by permission of the chaperones.

9. Everyone except those involved with the clean-up must leave the dance immediately after the dance.

10. After 10:00 p.m. there will be no more admittance of students or non-students to the dance.

11. Students leaving the dance after 10:00 p.m. are not re-admitted.

The above rules will be enforced by the members of the Student Council, Student Fuzz and Chaperones.

New party elects executive

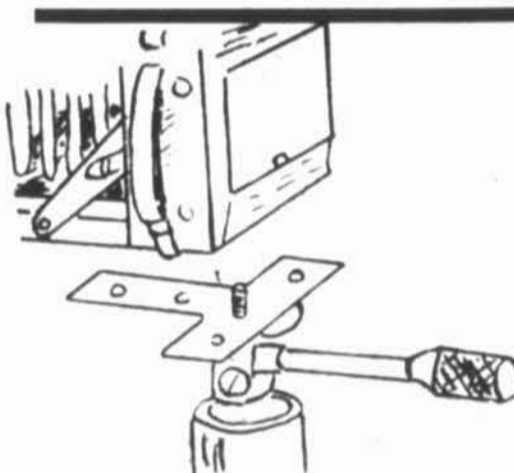

At a meeting of the New Labrador Party held at the Wabush Recreation Center on November 10, the executive officers of the Labrador West Branch were elected.

They are as follows: Malcolm Moss - President; William Dwyer - Vice-President; Robert Mercer - Recording Secretary; Robert Green - Financial Secretary; Michael King - Treasurer.

In addition to those a six member executive committee will be appointed to head up sub-committees on transportation, communication, living costs, party membership, finances, etc.

An executive will also be elected in the Churchill Falls - Twin Falls area to complete the formation of the party in Labrador.

When all branches have been organized a meeting will be held to elect the Provincial executive body.

STEADY CAMERA

The press-type of camera sometimes tends to wobble when mounted on a tripod. You can correct this by mounting a T-shaped bracket between the camera and the tripod, as in the illustration. Drill a hole through the bracket and insert it over the tripod screw. If the front bed of the camera is higher than the main body, bend up the front flanges of the bracket to support it.-(Gene Von).

Sir Wilfred Grenfell Hotel Appointment

Alphonse K. Rudkowski
Ira Tucker, General Manager of Crosbie Enterprises Limited, announces the appointment of Alphonse K. Rudkowski as Manager of the Sir Wilfred Grenfell Hotel in Wabush, Newfoundland. A native of Poland, A.K. Rudkowski studied Hotel Management at the Montana Hotel School in Lucerne, Switzerland and the Lewis Hotel School in Washington, D.C. A.K. Rudkowski was previously managing the Ashuanipi Social Club in Labrador City. He will assume his new responsibilities effective December 1, 1969.

All Day Weekends.

Solve-a-Crime

You are talking with young Tom Winston late tonight in the offices of the Midtown Personal Loan Company. He phoned you about a half-hour ago with the report of the robbery of more than \$10,000 in cash from their safe.

"I was alone here tonight," says Winston. "Trying to catch up on some of my paper work. I guess it was careless of me not to have locked the front door of our office ...and with all that cash in the safe in the outer office, too. I had counted some of it earlier and didn't bother to lock the safe, because of certain papers I had taken from the safe to work on, and which I intended to return to the safe later."

You are the detective

"Anyway, I was hard at work on the accounts in my office when I thought I heard the door in the outer office open. I sat there quietly for several minutes, and heard some rustling noises from the other office. I knew it couldn't be any of our employees out there. Then I got an idea. I reached over my desk and quietly unscrewed the big electric bulb in my desk lamp and then, holding this in my hand, I crept to the door of my office and peeped out. Sure enough, there was a man straightening up from the safe and starting for the outer door. I threw the light bulb down on the floor, and it exploded loudly. Just as I wanted him to do, he thought it was a gun firing and he crouched behind the table beside the door. I sprang toward him, but he recovered quickly and darted out the door. Then after finding out for sure that the money in the safe was gone, I phoned you."

You look at the safe, its door still standing open, some papers littering the floor in front of it. Then you step over the fragments of glass on the floor and saunter into Winston's office where you see his desk piled high with ledgers and papers, and you notice the big lamp on the desk with its empty light bulb socket.

"How about a description of the thief?" you ask the young man.

"Well, everything happened so fast, but I did notice that he was big...better than six feet tall...dark clothes, with a grey felt hat pulled down low over his eyes. That's about all I can tell you."

"On the contrary," you then say, "I'm sure you can tell me much more about this. Your story doesn't ring the right bell with me!"

Why do you doubt Tom Winston's story?

SOLUTION

Tom Winston's statement about his having used the electric light bulb has raised a big doubt in your mind. Such a light bulb that has been burning for some length of time is much too hot to handle!

Scanning the market

By C.S. DEVINE

The Benson "White Paper" looks at first glance, like the "death - blow" for the Canadian investment market. Capital gains sure, but at a reasonable rate. (Make it by Dec. '70 after that it will be too late.) We will comment further in our next column. In the meantime we intend to look into Caribbean investments in tax-free "havens".

Three stock I feel worthy of investigation:

1. Winnipeg Supply & Fuel Co., Ltd.: The company's name is a handicap, concedes Mr. Alex Robertson, president of Winnipeg Supply & Fuel. A "with-it" name, reflecting the company's interests in oil heating, construction materials and real estate, and its expansion ambitions, might help it sell at more than seven times earnings. On sales of \$18 million last year, Winnipeg Supply earned almost \$530,000 or \$1.06 a share. Sales and profits will be higher in 1969 says Mr. Robertson (.67c in the first 6 months.) The company's

stock has traded between \$9 - 9.50 since 500,000 shares were listed on the Toronto Stock Exchange earlier this year.

About 65% of Winnipeg Supply's revenues come from the sale of fuel oil and heating equipment, ready-mix concrete, and building materials sold through wholesale and do-it-yourself centers. Other divisions produce lime, sand and concrete blocks in Winnipeg and the nickel town of Thompson. The company also has three real estate subsidiaries. Construction supplies and real estate are the company's most promising growth areas, according to the President. The company is looking for mutually advantageous acquisitions as well as a new name.

2. Galt Malleable Iron Ltd.: Investors never seem to get very excited about Galt Malleable, even though its good growth record, low price-earnings multiple and ready market-availability on the TSE which would all seem to be desirable qualities in this uncertain market. Galt makes iron castings

and sells about 60% of its output to the auto industry. Though autos could be in for only a fair year, according to many industry people, Galt officials say that business is very strong and production is booked through July 1970. Capacity at the company's Brantford plant will be doubled by the beginning of next year.

Sales of \$6.3 million last year generated earnings of \$1.01 a share. The stock has traded this year with a price-earnings multiple as high as 15 times earnings, but the sell-off has brought the price down to a recent \$8.00 and a P.E. ratio of less than eight times. For the current year observers estimate earnings of \$1.10 - \$1.15 range, producing a ratio of earnings of under seven times.

3. Na-Churs International Ltd. Could it be a turnabout? "Very gratifying and satisfactory is the only way to describe it", says A.L. Farrow, President of N.C. Int'l., about his company's 12 month earnings, due this month. He characterizes the current year's

outlook in the same terms. Na-Churs makes and distributes liquid fertilizer for the agricultural industry, in Canada and the U.S. Soon after its appearance last year as a new issue and then a new listing on the TSE, the company suffered an earnings slump. Major corporate reorganization at the beginning of this year produced new accounting practices and a personnel shakeup which made Mr. Farrow president. The turnabout appears to date from this period.

At this year's three quarter mark, record sales were accompanied by earnings of 70 cents a share.

This compares with 68c for all of 1968. The stock currently trades at its all time low of about \$5.50, or less than eight times nine month earnings. Helping to improve the already rosy earnings picture is the recent publicity against farm chemicals in general and such pesticides as DDT in particular. Our products are organic and non-polluting, says Farrow, so we benefit from this kind of publicity.

Speaking of sports

CURLING BONSPAIL

The Carol Curling Club held its opening bonspail last week with 29 teams taking part which means close to 120 people curled on Friday, Saturday and Sunday. The presentation of awards was held at the Club on Sunday evening with the following teams being rewarded for their efforts.

Winner "A" Division - Don Swan, Irene Martin, Bert Alexander, and Shirley Dixon.

Winner "A" Consolation - Hugh Bright, Virginia Caverly, Howard George and B. Wadington.

Winner "B" Division - Grayson Crawley, Pat Fitzgerald, Walt Woolridge, Thelma Young.

Winner "B" Consolation - Carl Hiscock, Marg Roberts, Ron Gashinski, Carolyn Wells.

Winner "C" Division - Bob Winsor, Jill Porter, Art Squarey and Jim Ryan.

Winner "C" Consolation - Ray White, Suzanne Plue, Gerry McGuire, Noreen Noble.

Meanwhile the first school bonspail was held over the weekend and more than 50 students took part. A teen-dance was held at the club on Saturday and such an event is certainly a big boost for the program. The results will be carried in next week's issue.

HOCKEY SCENE

There is still nothing definite to report as everything in the "A" League still depends upon the "Saints" coming up with a team. Bill Dwyer, last year's Braves Coach, is presently scouting around looking to see what players are left following last week's registration.

Again the "B" League is ready and games will be played on

Mondays and Fridays at 7:00 p.m. If the first game has not already been played then the league will definitely open on Friday November 28. If it has opened, then the second game will be played on the aforementioned date.

by
Jack
Drover

MINOR HOCKEY

The minor hockey regular schedule is now in full swing and once a few more games have been played I will be publishing statistics. Most teams are now equipped with new sweaters and socks which are available to all boys for a \$5.00 deposit.

Tuesday November 25 - 5:00 - 6:00 Maple Leafs, Wings, Practice - Pee Wee. 6:00 - 7:00 Bruins, Kings, Practice - Pee Wee.

Wednesday November 26 - 4:45 - 5:45 Carol Cleaners

Midget. 5:45 - 6:45 J.R.S. Midget.

Thursday November 27 - 4:45 - 5:45 Royals Bantam. 5:45 - 6:45 Braves Bantam.

All games are now played on Saturday mornings from 8:00 - 1:00, Sunday afternoons from 3:30 - 5:30 and Monday afternoon from 4:45 - 5:45.

HERE AND THERE

Braves coach Reg Pottle performed a dual role at the recent registration of players. Beside registering his players, he was passing out cigars on the arrival of a baby girl. Our Congratulations. The minor hockey coaches are going to be quite colorful this year. The executive has purchased baseball caps for their coaches to wear in the arena. The recent mild spell

has killed the possibility of some members of Canada's Ski Team training here before leaving for Europe. A reminder to the public of the Annual Meeting of the sno-kart club to be held at the Wabush Legion on Thursday November 20 at 8:00 p.m. Inter-school volleyball is being played between the schools of Labrador City and Wabush and will continue for the next 3 weeks. The teachers of N.S.A. defeated their counterparts of both L.C.C. and Wabush in recent indoor soccer games. The professional figure skating instructor finished his first week and was very pleased with the attitude and willingness to work of the students. The ice will be off at the arena from Tuesday 18 to Monday 24, dates inclusive, for the Tommy Hunter Show. And now it looks as if the Leafs are worse than the Hawks, even without Bobby Hull.

Enquiry will consider one - province idea

Alberta Premier Harry E. Strom and Jean Marchand, federal minister of economic expansion, will be two of the special guests participating in the One Prairie Province Enquiry in Lethbridge, Alberta, May 10 to 13, 1970.

The enquiry will study the feasibility of political alignment among the three present prairie provinces - Alberta, Saskatchewan and Manitoba.

Various sections of the four-

day conference will discuss the constitutional and sociological considerations, the political and economic questions that would arise, the effect on regional development and possible alternatives.

The conference is not designed to be a decision-making or resolution-passing meeting; it will be limited to exploration of the issues and problems involved in any move to consolidate the three existing

provinces into a new political unit.

The One PPE conference is co-sponsored by the University of Lethbridge and its president, Dr. W.A.S. Smith, and the Lethbridge Herald and editor and publisher Cleo W. Mowers.

Format of the four days will be a division of the various topics into morning and afternoon sessions, with special guest speakers and reaction and discussion panels.

Ample time will be provided during the conference for delegates to discuss the proposals among themselves.

Other confirmed guests include Laurier LaPierre, manager of program, development with Bushnell Broadcasting Co., in Ottawa, a former professor of history at McGill University and once candidate for leadership of the Quebec New Democratic Party. Also attending will be Dr.

Norman Ward, professor of political science at University of Saskatchewan and author of a number of political science books including the authoritative "Government in Canada," and John Port, professor of sociology at Carleton University and author of several books including the best-selling "The Vertical Mosaic," an analysis of social class and power structures in Canada.

"If you'd used C-I-L paint last time, darling, you wouldn't be painting now."

Somehow, CILTONE Satin Latex and Semi-Gloss seem to stay fresher a lot longer than most other paints. CILTONE Satin Latex dries to a rich, velvety-smooth finish in just 20 minutes; keeps its exact shade washing after washing. And it goes on easily without dripping; cleans off just as easily simply by washing brushes or rollers in ordinary detergent and water.

For places that have to take a lot of punish-

ment, CILTONE Semi-Gloss enamel is the ideal interior paint. You can use this low-gloss enamel wherever a durable, washable finish is needed. And there are over 1000 beautifully matched colors to choose from.

So don't make the same mistake twice. This time, see us for CILTONE Interior Paints. And it'll be a lot longer till your next painting session.

CIL PAINTS
Cost no more than ordinary paints

The Bible today

A Bible Society colporteur in France received a letter from a prisoner, who wrote that while reading a text from the book of Ezekiel: "For I have no pleasure in the death of anyone, says the Lord God, so turn and live" (18, v.32), he did in fact turn from his sin to God . . . and was converted. "Now I turn to you" he wrote, "to help me to get off on the right foot in the Christian faith, because I shan't get any good advice about that here in prison. When you are a thief and Christ invites you to follow Him, you need someone to guide you." The prisoner is one taking a Bible correspondence course.

In a strongly Communist area two other colporteurs came across a young man of about 24, painting his house. He did not receive them kindly! What, me? The Gospel! Don't make me laugh! Do I look mug enough to be a Christian?" Hearing a friend call him John, they replied, jokingly, "But you have a very Christian name! John was a disciple whom Jesus loved very much." This seemed to leave him cold.

A year later the colporteurs saw the young man again - still painting his house! He seemed to have a craze for it. They bade him good morning. "Hey!" he called, "have you still got that book of John you told me about last time?" "Yes, but it's a Gospel." "That doesn't matter . . . I'd like one!"

THE PERSON who never makes a mistake never makes anything.
