# On the local scene

Santa Claus made an early visit to the twin towns last week where he was busily engaged entertaining the children and getting their last minute lists. Santa was in attendance at the Royal Theatre where the United Steel Workers of America, Labrador City local distributed gifts to approximately one thousand children, the same day children's parties were held at the Ashuanipi Social Club, Wabush Recreation Centre, The Royal Canadian Legion and the Sno-Kart Club.

The Chamber of Commerce plan to present the first Baby of the New Year, born in Labrador City or Wabush, with gifts. This is a yearly project of the Chamber's. A selection of appropriate gifts donated by the business section of the towns, will be presented to the mother of the first baby of 1970.

Mrs. Ray Curran would like to express her thanks to all those who sent wreaths, mass cards and messages of sympathy on the death of her father Mr. O'Rielly.

In the only fire reported over the holiday period, the Wabush Volunteer Brigade responded to a call at 2 p.m. on Christmas Day to 40 Squires Street, where a fire was in progress in a trailer owned and occupied by Mr. Francis Fulford. The firemen quickly brought the blaze under control. The trailer was considerably damaged by smoke and water. Cause of the fire is still under investigation.

Since Christmas Day several traffic accidents have been reported to the R.C.M.P. of both towns, all accidents were minor with only property damage. All accidents were caused by poor driving conditions with drifting snow and slippery streets.

Mr. Tom Burgess, M.H.A., leaves this weekend for a speaking tour of the Province to begin on January 5th. Mr. Burgess will visit practically every community in an effort to gain support for his new party. Plans for the tour are now being finalized. The proposed name for the new party is, "The Newfoundland and Labrador Party," a constitution is now being written.

A ban on the selling of soft drinks containing the artificial sweetener, cyclamate, went into effect

in Newfoundland, Christmas Eve. Soft drink products containing the artificial sweetener must have been removed from store shelves by that date. Other food commodities in

this category will be banned at various dates in the new year.

The Aurora records with regret the sudden passing of Mr. Ira Tucker, who died in his sleep on December 23rd, at the age of 36. Left to mourn the sad loss his wife, Elaine and two children.

Mr. Tucker was employed as Resident General Manager of Crosbie Enterprises, and was well known in both towns. Mrs. Tucker and her two children accompanied the body to St. John's on Wednesday's flight of EPA. We extend deepest sympathy to the bereaved.

**CROSBY-MACDONALD WEDDING** - A very pretty wedding was solemnized recently in the church of Our Lady of Perpetual Help, when LeeAnn, daughter of Mrs. Grace MacDonald, Labrador City became the bride of Mr. Bill Crosby of London, England. Rev. J. Laperriere officiated. The bride was given in marriage by Mr. Edward Smith. Mr. D. Gleghorn acted as best man.

Assisting the bride was Joy Gelghorn, matron of honour, with Barbara O'Brien as bridesmaid. Flower girls were Teena O'Brien and Lora Lee Tucker. Duncan Bell and Gerry O'Brien served as ushers. The reception was held at O'Brien Hall. The happy couple are now visiting Niagara Falls and Buffalo, New York on their honeymoon. Out of town guests

included, Mrs. Crosby, London, England, mother of the groom and her brother Mr. Bert Crosby. Mrs. Charles Sundstrom of Barrie, Ontario, and Mrs. Larkin Rowan of Toronto. Mr. and Mrs. Crosby will be returning shortly to take up residence in Labrador City, where Mr. Crosby is employed with the Iron Ore Company of Canada. (Biron Photo).

## Mind teaser

A man drew plans for a garage which was to be 5 feet longer than wide. However, he subsequently increased the length of each side of his garage by 7 feet, which gave him a garage with a floor area 322 square feet greater than that of his originally planned garage. What were the measurements of his completed garage?

### ANSWER

24 by 29 feet. Let X equal original width and (X plus 5) original length. Form equation: X times (X plus 5) plus 322 equals (X plus 7) times (X plus 12). Solve for X, the original width; add 5 to this for original length; then add 7 to each result for final measurements.

## A new leaf

Another decade is coming to an end and we are now facing the 1970's.

What will these years bring?

Without a doubt there will be misfortunes, set-backs and even tragedy, but such is life. One of the greatest gifts given to us is that we cannot tell what lies ahead. People continually predict events, but if we all knew what was to come, we would be a dull, even terrified lot.

Resolutions are usually insignificant things. They're something to talk about on New Year's Day and after that, something to forget.

The resolution which will probably have the best results is one which is not too exacting . . . and one which is worthwhile.

This year, why don't we resolve to learn more about other people, to become interested in things other than the ordinary day-to-day gossip and in so doing, make a worthier contribution to the little bit of well-being and kindness that's left in the world?

Newfoundland is not known for being a particularly well-educated place, as a matter of fact, it's fairly low on the Canadian ladder.

We can give ourselves a better appearance, we don't mean by going back en masse to school, but by earnestly striving to be a more enlightened, more just and interesting people.

Today we are all involved in the petty, little events that mean nothing and get us nowhere.

There is too much gossip.

There is too much preoccupation with cheap, sensational stories;

There is too much bickering at governments;

There is too much complaining about what we haven't got;

We talk too much about other people's wrong-doings;

We talk too much about morbid, tragic accidents;

We are filling our minds with too much television and radio;

We don't care that Newfoundland can still offer a great, clean out-of-doors;

There is too much artificial Christianity;

There is too much ignorance about off-beat young people;

There are too many meaningless little meetings with trivial elections. Energy that could be better spent on worthwhile projects is dwindled on the usual run - of - the - mill social ideas;

We don't read enough. We are too satisfied to be fed half-truths and brainwashed with sensationalism on TV and at the movies.

If in the seventies we can manage to lift ourselves, even a little from this comfortable social morass, then perhaps we will all face the 1980's as better people.

We will face the future as a people with chins up and minds free to make rational and fair decisions.

## Here 'n' there

**NEW RECORD:** It looks as though housing starts in Canada will pass the 200,000 mark in 1969 for the first time. Central Mortgage & Housing Corp., in marking this prediction, pointed out that the previous record was 196,878 starts last year. It is still well under CMHC's own objective of 250,000 a year, the level it feels is necessary if all Canada's housing problems are to be overcome.

**REDUCED COSTS:** New trans-Atlantic air fares, effective January 1970, which will be of special benefit to Newfoundland, have recently been announced. From Gander to London, Air Canada's "affinity group fare" for 80 or more persons will be \$131.00 (return) for each person, basic winter price, as the result of the International Air Transport Association meeting in Caracas, Venezuela. A spokesman for Air Canada said the Atlantic provinces will benefit substantially from the lower trans-Atlantic fares. The new "affinity group fare" is for persons belonging to an organization formed for purposes other than travel at least six months prior to departure. The spring and fall affinity group fare from Gander to London is \$155.00, the summer rate is \$201.00. Whose for a "bird watchers" club?

**BARBER PROBLEMS:** Barbers suffer as longer hair styles stretch the time between trims. In Boston, some shops have laid off 25 to 33% of their barbers in the past year, according to an official of the Barbers Union. He estimates that the take home pay for the average barber has dropped to about \$100.00 a week, exclusive of tips, from \$125.00. Business at New York City barbershops has declined 35-45% since 1964, according to the Atlas Barber College. The trend to longer hair prompts men to go "four weeks or so" between haircuts, "twice as long" as they did five years ago, complains one large New York owner. To survive, many barbers become "hairstylists." By offering more personalized service, they can make twice as much as the average barber. Barbers in Cleveland push haircuts with signs that read: "Trim the odds against you....For the well groomed, there are better job opportunities.

**SHARE PURCHASE:** Argus Corp. reports that it purchased 100,000 share of Hollinger Mines during the year ended 30 Nov., 1969, bringing its holdings to a total of 1,000,000 shares of Hollinger, or 20.3% of the issued capital.

**FEWER IMMIGRANTS:** Some

48,751 persons immigrated to Canada in the third quarter of 1969, some 4.8% less than in 1968. First nine months total of 119,692, was 12.2% below 1968; of this figure 52% were in the 20-34 age bracket. About 33% headed to professional occupation; 28% to manufacturing, mechanical and construction work. Area breakdown: from Europe 55% (against 66% in 1968); North, Central America, 22% (1968 figure 15%); Asia 15% (1968 12%); South America 3% (prior year 1.5%).

**A NEW HIGHWAY?** Mayor Donald Gallienne of Sept Iles, has called for construction of a highway along the Quebec north shore all the way to Blanc Sablon on the Newfoundland border. Mayor Gallienne said he saw the roadway as a long term project over a number of years. The creation of a national park somewhere between Seven Islands and Blanc Sablon would encourage construction of the road and would bring tourists to the area, he stated. "A highway would give Newfoundlanders and those living on the North Shore a chance to travel by automobile all the way to Montreal and to other parts of Canada."

**SINKING CITY:** Officials of Venice, the slowly sinking Italian canal city have enlisted the aid of a computer to attempt to prevent the city from slowly disappearing. It will be fed information on winds, tides, soil composition, the movement of water underground and other data on the problem. Estimates show that, at the present rate, 67% of Venice will be submerged by 1990.

**IRON ORE PRICE INCREASE:** The price of iron ore pellets is to be increased by 5.5% to 26.6%

## Mind teasers

Three numbers total 342. If the largest number is divided by the second largest number, and if the second largest number is divided by the smallest number, the quotient in each case is 7. What are these three numbers?

**ANSWER:**

294, 42, and 6. Let X equal first number. Then X/7 equals the second number, and X/7 divided by 7, or X/49, equals the third number. Form equation: X plus X/7 plus X/49 equals 342. Solve for X, the largest number.

A fox is being chased by a hound which is 84 yards behind it. If the hound runs 15 yards while the fox is running 12 yards, how many yards will the fox run before being overtaken by the hound?

**ANSWER:**

336 yards. Divide 84 by the difference between 15 and 12; multiply result by 12.

for every 1% of iron ore content per ton of ore 1 Jan., 1970, Hanna Mining Co., of Cleveland announced recently. The company also announced that natural iron ore would be increased by 25c a ton on the same date. Announcements of similar increases from other companies are expected shortly.

**SKI SLED:** Here's an invention which will allow even the most cowardly of sportsmen to take part in the ski fun this winter. A U.S. inventor provides a new ski sled. It's a spider-like sled that lets you duplicate skiing manoeuvres with a control stick. Both pairs of the vehicle's ski-legs bank, and the front skis pivot and snowplow as well. A drag brake can be used for stops.

**CONTROLLED AROMA:** If household odors bother you, maybe this firm's odor-control device can serve as a much needed breath of fresh air. The device may be installed in heating or air conditioning ductwork. It's filled with an odor control chemical. A fan, activated by a control in the kitchen, blows the chemical into the ductwork. The device may also be mounted on an interior wall in homes with ductless heating or cooling systems.

**UNIVERSAL UNION LABEL?** An AFL-CIO department will study the "feasibility" of uniform "union made" label for all sorts of U.S. made goods. Officials figure a single easily recognized label would help consumers spot, and presumably avoid, imports.

**NEW APPOINTMENT:** It was disclosed in Montreal recently that William D. Mulholland, 43, has been named president and chief executive officer of British Newfoundland Corporation Ltd. At the same time he became president and chief executive officer of Churchill Falls (Labrador) Corporation Ltd., a Brinco subsidiary. He succeeds Sir Val Duncan who took over the presidency of the two corporations on a temporary basis following the death of the former President, Donald J. McParland in a plane crash, near Labrador City on 11th November. Sir Val, chairman and chief executive of the Rio-Tinto Ainc Corp., a British firm, will remain chairman of the Board Churchill Falls Corp.. Henry Borden is chairman of Brinco.

**ORE TO JAPAN:** The Tsugaru Maru, a Japanese bulk carrier was recently loaded with 78,319 tons of iron ore concentrates at Port Cartier. It was the first Japanese ship to enter the port. The ore was from Quebec Cartier Mining Co.

# The youth column by Sharon Bryans

A Christmas semi-formal dance was held at Notre Dame Academy on December 15. This dance

## mind teasers

A man has a square plot of ground on his property containing  $552\frac{1}{4}$  square feet and wishes to construct a circular swimming pool whose edges will touch all four boundaries of the plot. What will be the circumference of this pool?

### ANSWER

73.83 (minus) feet. Extract square root of 552.25, and multiply result by 3.1416 (pi).

A train that is 160 feet long and traveling at a uniform speed of 25 miles an hour passes through a tunnel that is 240 yards long. How long does it take this train to pass completely through the tunnel?

### ANSWER

24 seconds. Multiply 240 by 3 (number of feet in one yard); add 160; divide result by product of 25 and 5,280 (number of feet in one mile); then multiply by 3600 (number of seconds in one hour).

was for the grade six to eight students of both Notre Dame and the Amalgamated schools.

Mr. Ed. Robins an Anthropologist from New York studying for his Ph.D. at Memorial University spoke to the grade eleven "A" class at the Collegiate on Wednesday December 17. He will be staying in the Wabush and Labrador City area to do a study on how people live with urbanization in the North as compared to living in a rural setting in the North.

On Thursday December 18 a small group of students from the collegiate ventured into the woods to cut Christmas trees for the decorations at the Christmas dance. A number of teachers went out later in the afternoon to collect the students and the trees bringing them both back to the school. On Thursday evening many of the teachers in Labrador City left by air for their Christmas vacations.

On Friday December 19, the first day of Christmas activity in the gym of the

Labrador City Collegiate as decorations were put up for the Christmas Dance.

Those decorating when they returned on Friday evening were invited to join the party. This party was a combined gathering of Cubs, Scouts, Guides and Brownies. Activity continued on Saturday morning in preparation for the Dance. Girls in the high school made sandwiches and sweets for the buffet served later that evening. Meanwhile the others completed decorating until five in the afternoon. As a result the dance was a tremendous success, which was partially due to the well behaved crowd, and the performance of the band, nevertheless the turnout was much smaller for the clean-up on Sunday.

The Sir Wilfred Grenfell Hotel hosted a teenage semi-formal dance on Monday, sponsored by the Labrador City Youth Association, music was provided by the Krystals. Christmas evening saw another dance sponsored by the Youth Association held

at the Ashuanipi Social Club. All girls attending were presented with a white carnation at the door. The dance was very successful with everyone enjoying themselves. Mrs. Little representing the Youth Association, expressed appreciation for the large turnout and wished them the compliments of the season. Music was provided by a group of high school students.

The high school curling club invitational bonspiel scheduled for last weekend was cancelled due to the

out of town teams being unable to attend. A local bonspiel was held instead, with a number of students that are home from University participating. The bonspiel was held all day Saturday and finished at 3:30 on Sunday. A dance was held on Saturday night in conjunction with the curling event, following the final games on Sunday, the presentation of awards was made with a Pot Luck Supper being provided. A more extensive report on this bonspiel will be carried in my next column.

**SAILMAKER RESCUES YOUR BALCONY** - A balcony can be a conspicuous place when you're entertaining. People in nearby buildings can look in through the iron railings. Try lacking canvas rectangles to the railing. They will give privacy, add color and keep things from blowing around when the wind is strong. An awningmaker or sailmaker will put grommets in the hemmed canvas. Nylon clothesline can be used for lacings. For a more temporary arrangement use a lighter material in which holes can be punched. Don't forget outdoor carpeting on the deck. Get it to match one of the colors of the canvas. - (Barbara Barnes).

Happy birthday to Kenny Brinston, who celebrated his birthday December 24.

Deepest sympathy to Mrs. Joe Collins and Mrs. Jim Farrell, on the death of their sister, Mrs. Wilfred Penney of Corner Brook. Mr. and Mrs. Collins, Mr. and Mrs. Farrell flew out to attend the funeral.

Percy Brinston of Wabush is a patient at the Jackman Memorial Hospital, hope Santa was real good to you, and that you will be home soon.

The social evening at the Catholic Church Basement Wabush will commence after the Christmas holidays, January 7.

Welcome home to the students who are back from attending University in various parts of Canada.

Nice to see that Wilma Wortelboer is back from Toronto, where she was hospitalized. Wilma is now recuperating at home.

### Service supreme

A careful man I ought to be,  
A little fellow follows me  
I do not dare to go astray  
For fear he'll go the self same way.

I cannot once escape his eyes  
Whate'er he sees me do he tries  
Like me he says he's going to be  
The little chap that follows me.

He thinks that I am good and fine,  
Believes in every word of mine;  
The base in me he must not see  
That little chap that follows me.

I must remember as I go  
Thru summer sun and winter's snow  
I am building for the years to be  
That little chap that follows me.

ONE OUGHT every day at least, to hear a little song, read a good poem, see a fine picture .....and if it were possible, to speak a few reasonable words.

## METAL POLISH

A very capable substitute for regular metal polish is a stick of ordinary blackboard chalk. Just rub a little soft-grade chalk onto a dry or damp cloth, and apply to the metal surface that needs polishing. There is just enough abrasive quality to the chalk to remove dirt and grease without scratching, and it leaves a nice, glossy finish on the metal, too. - (Gene Von).

## MONDAY, JAN. 5th

Royal Theatre - Change of Habit - Elvis Presley.  
 Ashuanipi Social Club -

# Manpower topic: occupational training

The Occupational Training for Adults Program (OTA) has been developed by the Federal Government in order to help workers keep pace with a Canadian economy which is quickly moving into a period of high industrialization. It is designed, not only to help workers to get a job, but to help them get a better job.

Under OTA the Department of Manpower and Immigration can pay the cost of training for people who need it, and also pay allowances while they take full time training. While our training program is not perfect, it is performing an increasingly effective role in the economy. The administrative costs on the Federal side are minimal and there has been no buildup of administrative staff. Practically all the administrative work in the field is done by existing personnel at Canada Manpower Centres across the country and only a small number of Canada Manpower Centre employees are involved specifically in administering training activities.

The purpose of training programs is not, of course, to fill Provincial training institutions, outstanding as their role has been. Training is dedicated to helping Canadians get better

jobs. In many cases, they are Canadians with talent and capacity but without necessary skills. Training courses are designed to fill the gap between capacity and skills. To do this, the Federal Government is spending \$250 million this year and all of this money goes to the trainees in the form of allowances and to the Provinces in the form of payments for training programs. No money is spent on Federal Administration.

Training Programs involving massive expenditures of public funds must be viewed in a broad economic context as social instruments, rather than as mere job filling devices. They are geared to raising the income potential of individual workers and combatting long range welfare costs.

The full impact of our training program is most evident in regions of Canada suffering from unemployment, and low income levels. Strict cost benefit analyses have indicated that money spent on training and allowances is returned at least two-fold in increased incomes and other economic benefits.

Our program deals with people and not statistics. As

Manpower Counsellors administering training programs we make every effort to ensure that the human element is kept in the fore. A systematic effort is made to tailor training counselling to the needs of the individual, and indeed to his capacities and potential.

For more information about the Manpower OTA Program please contact the Canada Manpower Centre in Wabush.

## JOB OPPORTUNITIES

Work in the Wabush - Labrador City area at the present time is very limited for Clients seeking labour, truck driving or related construction occupations. Please keep this in mind if writing or talking to friends who wish to seek work in this area on speculation.

LABRADOR CITY

## Editorially Speaking

The final hours of 1969 are fast approaching and we are about to welcome a New Year. We all have a tendency to look back at the past twelve months and assess its failures and success.

The more predominant events locally; was the four month long strike which had a crippling effect on both towns, financially and morally, but it appears as we are about to enter 1970 that the twin towns are now back to normal. Then on November 11th, the area again made headlines, with the tragic plane crash which claimed eight lives.

In 1969 Labrador West received more publicity, both good and bad, nationwide than it ever has in the past. The end result was, that the residents of both towns were drawn together in a spirit of co-operation. We should endeavour in the coming year to maintain this goodwill and work together for the betterment of our area.

Our top priority projects for the New Year should be, the establishment of local government, with elected councils. Labrador City and Wabush with approximately twelve thousand residents are now big enough to stand on their own feet. With your support this could be accomplished.

The establishment of a local radio station, whether CBC or privately owned. The improvement of television service to the area. There is no two other towns in all Canada, equivalent in size and wealth that has such haphazard communications.

These projects are not impossible, but can be achieved only with the support of all citizens and every one has to become involved. Let our New Year's resolution be; that we will become involved. Let our New Year's resolution be; that we will become interested and make our towns a better place to live. To all our readers and advertisers we extend our wish, for Health, Wealth and Happiness in 1970.

## Children display their talents

Approximately five hundred parents and friends attended the annual Christmas concert held at Notre Dame Academy December 18. Four hundred of the seven hundred students enrolled took part. The program consisted of carolling and Christmas plays. The seventy members of the Academy Choir under the direction of Miss J. Deacy, delivered a beautiful program of Christmas Carols. Plays were directed by Miss Francis Gatherall and Madame Roy. Musical accompaniment and direction, Miss J. Deacy. Following the concert the Principal, P.G. Condgon extended season's greetings to those present and declared the school holiday period to commence December 19. —(Biron Photos).

Can provide day care in private home for children any age, telephone 944-2971.

### NOTE OF THANKS

The President and Executive of the United Steel Workers of America, Local 5795, Labrador City, wish to express their thanks to all who helped to make the Children's Christmas Party a success.

### CHRISTMAS CAR DRAW

The drawing for the 1970 Cadillac, sponsored by the Labrador West Chamber of Commerce took place Saturday past at the O'Brien Hall, the lucky ticket was drawn by Flip Dawson. Miss Maureen Sloane of Labrador City was the winner.

throughout the holidays, with the exception of New Year's Day, the bus leaves the Wabush shopping centre at 9:30 a.m.

Members are reminded of the special general meeting scheduled for Sunday evening, January 11th. Following the meeting there will be a steak night and entertainment. On behalf of the Board of Directors of the Ski Club we wish all members a Happy and Prosperous New Year. Miss Sloane is employed by

Richard B & A Ryan Construction.

### SKI CLUB NOTES

The sno-packer which was ordered recently has arrived and now being assembled, it is expected that the packer will be ready for operation within a week. Wabush skiers are reminded that a bus service is now being provided and operates on a daily basis to the Ski Lodge. This service will continue

### SHOE LACES

If the metal tips on some of your shoe laces have broken away, you can easily remedy the situation with some cellulose tape and a little fingernail polish. Just wind several turns of the tape around the end of the lace, then seal this in place with an application of the nail polish. The resultant tip

will last almost as long as the regular tip. - (Gene Von).

## PAINTBRUSH CARE

If you have been using a paintbrush, have not quite finished the job at hand, and expect to resume painting the following day - it is not necessary to go through the routine of cleaning and washing your brush. All you have to do is protect the bristles from the air, and you can do this by wrapping them tightly in waxed paper or aluminum foil, twisting and taping the ends of the sheet around the brush handle. This will prevent the paint in the bristles from hardening, and your brush will be perfectly usable when you resume your work - (Gene Von)

## 'F.Y.I.'

**AWARDS:** Drivers of private cars may have a little difficulty for a new safe driving award from the Department of Highways and Transport of Alberta. The prize is being given to residents who complete one million miles of accident-free motoring. At 12,000 miles a year, it would take 83 years to earn the award. It is "a beautiful framed certificate."

**GILT-EDGED GREETINGS:** Cartier in New York offers to provide an artist at customers' homes to sketch the exterior or a favorite room for printing on Christmas cards. Price for the cards, with the sketch thrown in: \$165 and up for the first 100.

# Solve-a-crime

By A.C. GORDON

You are seated in the home study of the wealthy Jonathan Brent listening to his story of the robbery. "Upon arriving at my office downtown this morning," he says, "I discovered that I had left some important papers here in my safe at home. I immediately sent my secretary, Miss Susan Riley, to get them, and a half-hour later she phoned me from here . . . told me she had found the safe already open and papers littered all over the floor. I hurried home and found that more than \$2,000 in cash was missing from the safe!

## You are the detective

"Besides Miss Riley, only my housekeeper, Mrs. Lon, and my valet, Harrison, know the combination of the safe . . . that's what disturbs me more than the loss of the money . . . the fact that one of these three persons is probably guilty of betraying my trust."

After making a thorough examination of the safe's door, the study door, the desk, and the telephone for fingerprints, and finding nothing, you proceed to interrogate each of the suspects separately.

Susan Riley is first: "I was startled to find the safe open," she exclaims. "I didn't even attempt to look for the papers Mr. Brent had sent me for . . . I phoned him immediately, then I called Mrs. Long and Mr. Harrison into the room. They were as shocked as I when they saw what had happened."

"I had been busy this morning, as usual, in the kitchen, then in the bedrooms," says the stout housekeeper, Mrs. Long. "Until I heard her call, I didn't even know Miss Riley was in the house. I'll admit I was in the study here just after Mr. Brent left for his office this

morning . . . but everything was in perfect order then."

Your final interview is with the tall, lean, and rather sullen-looking valet, Harrison. "I admitted Miss Riley at the front door," he says. "Then I was on my way to the rear of the house when I heard her call out. I hope you aren't trying to pin this on me. Mr. Brent has always been a considerate and generous employer, and I wouldn't even dream of robbing . . ."

You interrupt the valet at this point by calling Susan Riley and Mrs. Long back into the room. "Has any one of you touched or moved anything at all in this room since discovering the theft?"

The housekeeper and the valet shake their heads, and Susan Riley volunteers, "I did use the phone, you know."

Then you point your finger at your prime suspect. Who is it?

### SOLUTION

Susan Riley. Although she had admitted using the telephone to report the theft to her employer, you found the phone clean of all fingerprints. Evidently in her anxiety to remove all prints, she wiped clean not only the door of the safe, the study door, the desk — but even the telephone!

# New year's eve

By CHARLES W. RENDELL

The frosted bells bechime the midnight hour,  
The pregnant silence bursts to wild acclaim,  
A new and pristine year presents its scrolling,  
Un sullied, blank, unmarked, save numbered name.

The year is gone; it's place in Time's thrall folded,  
Yet dying rises to unending years,  
It's worst and best reborn at Memory's calling,  
With many a thrill of gladness, many a tear.

We little know the hand of hours oncoming,  
How fate will smear, or etch with trace of gold;  
So it sufficeth, so has always been,  
Time passeth Time, so soon the Tale is told.

The changing change or years deliver gladness,  
And many a scar of sorrow, Glance of Grace,  
Gain to our Goodness, age to age advancing,  
From out the binding bourne of Time and Space.

What difference, if with Cup of Life o'erflowing  
I see the nearest future, Joy unscathed?  
I might as well with soul full sore and tested,  
Stand firm and strong and drink of bitter dregs.

But nay! Let us be up and gladly doing,  
What matter, whether now a Cross or Crown?  
With love and Fervour serving, calmly doing,  
Nor dare till Death to lay the Guerdon down.

So thus it was, and is, and shall be ever  
For Mortals treading Dawn till Final Dark,  
But God is with us and the Great Endeavour,  
Eternity shall hallow to her Heart.

## Quotes

You find yourself refreshed by the presence of cheerful people. Why not make earnest effort to confer that pleasure on others? (Lydia Maria Child).

You will find it less easy to uproot faults than to choke them by gaining virtues. Do not think of your faults; still less of others' faults. In every person who comes near you look for what is good and strong; honor that; rejoice in it; as you can, try to imitate it, and your faults will drop off, like dead leaves when their time comes. (John Ruskin).

The greatest thing a man can do for his Heavenly Father is to be kind to some of his other children. (Henry Drummond).

## PAST

## THE EARTH SIGNS

And God said, let the waters under the heavens be gathered together unto one place, and let the dry land appear; and it was so. And God called the dry land Earth; and the gathering together of the waters called the Seas; and God saw that it was good. (Genesis 1:9-10.)

The words Earth and Heaven are capitalized in the Bible, as was always done in astrology. There is the possibility these words meant the Earth and Air signs of the zodiac. While also capitalized, the word Seas may have represented the Water signs. No reference to the Fire signs, sometimes called the spiritual signs. They may be symbolized by the creation of Man as a spiritual being, after animals of the Earth and fish of the Seas. The Greek word, zodiac, meant the animals. The Hopi version of creation introduced all four elements, Fire, Earth, Air and Water.

## FUTURE

## TOBEY'S PREDICTION:

Watch health factor. Endeavor to avoid colds, etc., but if they come along do not neglect them. There can be feverish conditions. Don't overdo anything. You'll save if you keep health in Number One condition. Avoid getting bogged down in materialistic concepts. Inspiration lacking. Look forward, not backward, and avoid becoming a pillar of salt. This too will pass.

© 1970 by NEA, Inc.,

## THE LIBRA PLAYGIRL

When she plays, it may be half-heartedly because she's unsure of herself but with confidence she goes all out. A lot of beauty here, but she may fear expressing it. Her greatest assets may be unconsciously concealed. Flattery makes her happy but she doesn't believe it. It makes her feel good, and she appreciates that. Dig deep into her nature, discover her artistic assets. If you can convince her they exist, she'll never forget you. She will appreciate you and do something for YOU some time.

## PRESENT

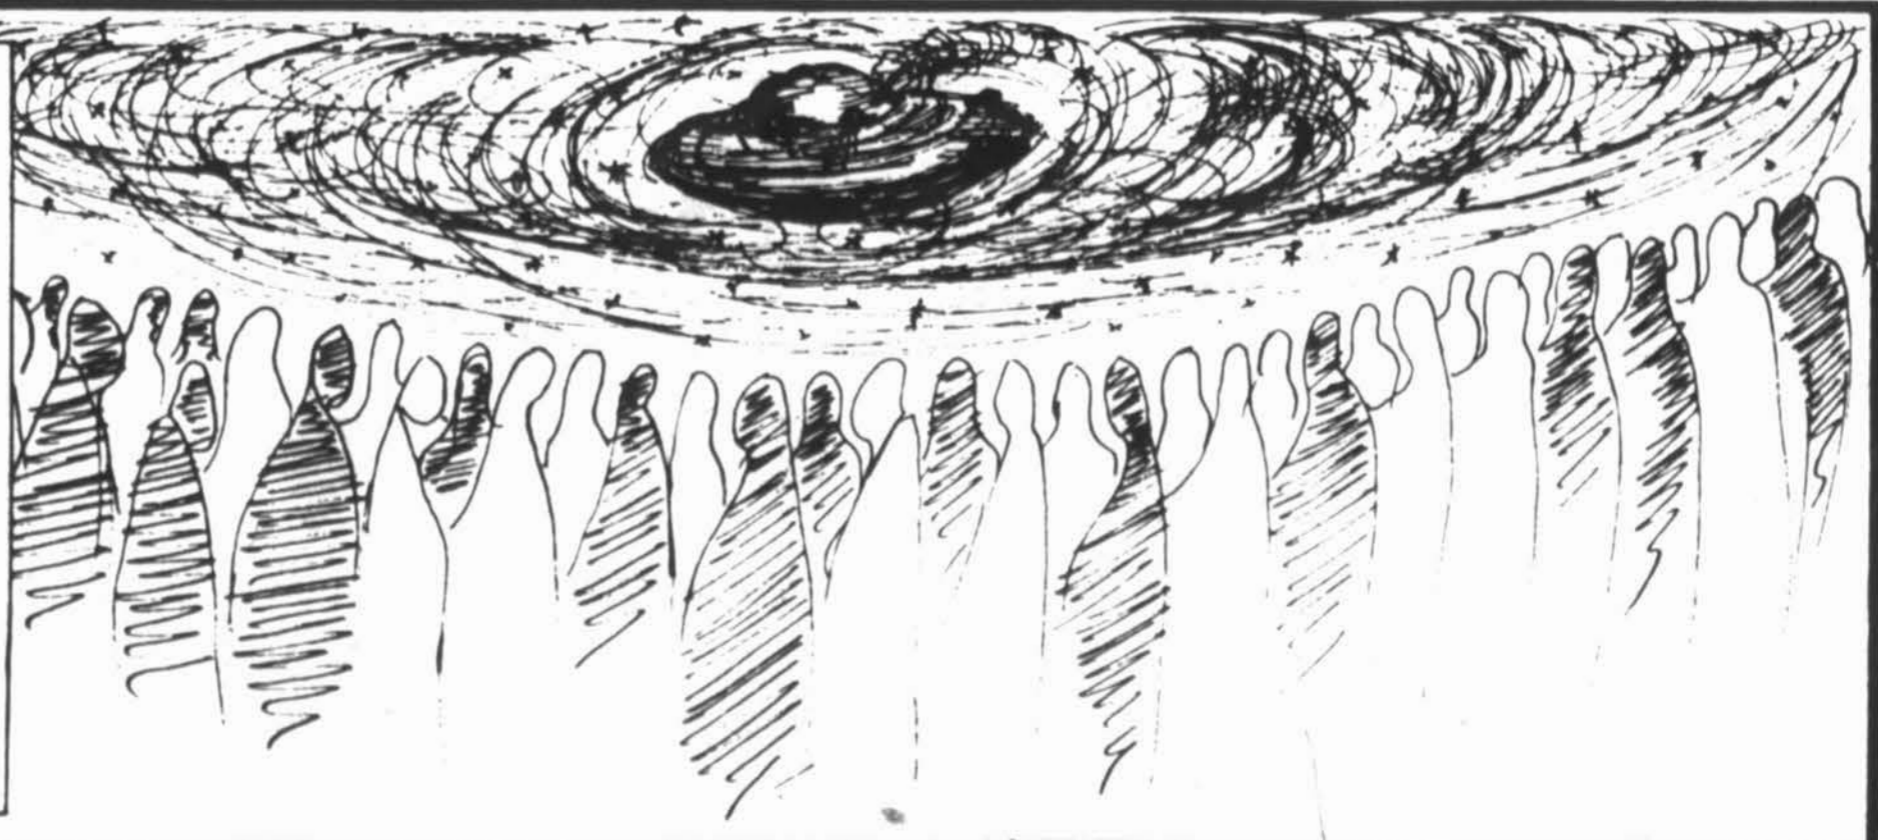

## YOUR WEEK AHEAD

- ♈ ARIES** Mar. 21-Apr. 19  
Conservative course best through Wednesday. Rest of week better Thursday and Friday; new contacts good.
- ♉ TAURUS** Apr. 20-May 20  
Week improving as you go along. Coming weekend can be favorable socially, romantically, and is friendly.
- ♊ GEMINI** May 21-Jun. 21  
Don't make changes Sunday and Monday. Doubtful for travel. Unstable. Thereafter, more favorable.
- ♋ CANCER** Jun. 22-Jul. 22  
Stick to routine matters not requiring special skill or judgment. Tuesday through Thursday unstable.
- ♌ LEO** Jul. 23-Aug. 22  
Sunday and Monday creative. Thursday and Friday, avoid putting yourself out front. Watch your reactions.
- ♍ VIRGO** Aug. 23-Sep. 22  
Push ideas and plans Tuesday and Wednesday. Avoid travel or excess activities on coming weekend.

- ♎ LIBRA** Sep. 23-Oct. 22  
Protect personal interests Tuesday and Wednesday. You can go forward with new ideas Thurs. and Fri.
- ♏ SCORPIO** Oct. 23-Nov. 21  
Be cautious about making changes Thursday and Friday. Next weekend, follow your own ideas.
- ♐ SAGITTARIUS** Nov. 22-Dec. 21  
Sunday through Tuesday favorable for progress. Your intuition improved. Push personal plans.
- ♑ CAPRICORN** Dec. 22-Jan. 19  
Be constructive and you can make this a good week. Tuesday through Thursday mark best days for action.
- ♒ AQUARIUS** Jan. 20-Feb. 18  
Move forward. Thursday and Friday best days for making new contacts and getting the new under way.
- ♓ PISCES** Feb. 19-Mar. 20  
You are on the up-grade all week. Favorable for travel and other activities over the coming weekend.

## STARTLING CONCEPTS

Among the new breed is a physicist with the Saturn V Moon Vehicle project. He is Adrian V. Clark. Breaking away from materialistic concepts, he carefully explores the unknown areas from UFO to the Bible. His book, "Cosmic Mysteries of the Universe" (Parker Publishing Co.) can be nerve-shattering. He sees superhuman beings appearing from space periodically, interfering with our course of events. These beings do not have wings (artists added the wings) but he thinks they were anciently called angels. Such open-minded men as Clark made the Space Age possible. The older breed maintained rockets could not travel in a vacuum. Newton's views indicated they could.
