# On the local scene

**COURT NEWS:** Shoplifting is again on the increase. After last winter's epidemic the incidence dropped considerably during the spring and early summer. However six residents (5 female, 1 male) were convicted in a two week period, earlier this month. Sgt. M.R. Evans, the new N.C.O.I.C. of Labrador City R.C.M.P. Detachment advised Aurora, local police will be increasing their patrols of stores (periodically in plain clothes). He has been assured by business manager's that all shoplifters will be prosecuted. Year to date convictions for shoplifting are well above last year and according to Sgt. Evans, much greater than in other centres of comparable size, in this Province. In addition to Sgt. M.R. Evans, — who has 18 years experience in Newfoundland police work — other additions to the L.C. detachment are Constables C.L. Fraser, W.T. Burger, J.J. McKinnon and G.P. Dunphy. Const. G.C. Dobson is expected on or about 1 Sept.

Magistrate Rowe also recently heard cases involving supplying liquor to minors, intoxication, removing of liquor from licensed premises, and a number of traffic offenses. In all cases fines were imposed. Two male residents convicted of damaging a Taxi Cab were fined \$100.00 each. A local resident convicted of Indecent Exposure was fined \$25.00. Three workers at Churchill Falls were convicted and fined \$200.00 each under the Narcotic Control Act; possession of marijuana.

The R.C.M.P., Labrador City have in their possession two bicycles; (1) C.C.M. "Cheeta" Girls Bicycle, blue frame, sissy-bar, chrome mudguards. (1) Cross-Country "Mustang" boys bicycle. Color purple. Also a number of coin purses, prescription eye-glasses, wrist watches, key cases, transistor radio etc. Residents who have lost such articles, of late, are requested to contact R.C.M.P., Town Hall, Labrador City and claim their property.

**BUSINESS BUILDING CONTINUES IN L.C.:** Latest announcement, construction of a Steak House by Messrs C. Flemming & P. Tarrant. This building will be erected near the present Jubber complex. Aurora learned a delicatessen, food-catering business will also be erected in the area near the new A. & W. fast-food outlet.

Major steel work has been completed for the new Handy Andy building supplies warehouse and construction seems to be going ahead rapidly on the Union Hall. The extension to Bruno Furniture is just about complete and could be open this week.

Nice to see the paint-up work on a number of buildings in our twin-towns. However we believe its about time the Carol Shopping Centre — especially the older-section — was given a paint job. Its now over nine years since the original was opened and a "spruce-up" is long overdue.

The section of Mount Wright road thru Labrador City is rapidly nearing completion, but to his layman's eye seems awfully narrow in certain areas. We are willing to place a bet, right now, that the section near Atco. Trailers will be washed out or at least a quagmire next spring. Aurora learns that while a government road, the part within the town limits of Lab. City, must be maintained by the Local Improvement District.

**FRIDAY 13th WINNERS, AT HUDSON BAY:** Mrs. Doherty, Mrs. Bastow, Mrs. Casell, Mrs. Dunphy, Mrs. Snow, Missies G. Lane, and R. Pickett. Messrs Butt Delaney and Desjardins. Each won merchandise to the value of \$13.00.

**FISHING CONTEST:** Congratulations to Mr. Doug Pantry, 804 Bartlett Drive, Labrador City, winner of

Work is progressing well on the new Union Hall Labrador City.

**AYRES, speckled contest.** Doug's prize winner weighed 4½ lbs.

**RULES DROPPED ON SCHOOL UNIFORMS:** Senior high school students attending the four high school under the jurisdiction of the Newfoundland Avalon Consolidated School Board will not have to wear school uniforms beginning September 1971. The change was announced to parents in a letter from the school board before school closed in June. The schools affected by the changed ruling regarding dress are Bishops College, Prince of Wales Collegiate, Booth Memorial, and St. Boniface High School, Bell Island. The required dress for girls will now be either, dress, a gimp and blouse, a skirt and blouse, a pants suit, or a dressy slack suit. Boys may wear trousers with sport shirt, trousers with dress shirt and tie, dress suit with shirt and tie, blazer or sweater. Either shoes or dress boots may be worn. K.E. Veitch of the St. John's Roman Catholic School Board said that he hasn't heard any suggested policy change on wearing uniforms for Brother Rice, Gonzaga, and Holy Heart of Mary, all under the jurisdiction of the R.C. Board. Pastor G. Noble said that the students attending the Eugene Vaters Academy will be wearing uniforms.

**FUTURE OF LABRADOR UNLIMITED:**

The future of Labrador is "unlimited" and much closer to being realized that is generally considered, Deputy Minister of Community Development Peter van Es said recently in St. John's. The opening of Gose Bay Airport to commercial as well as military traffic, the building of the Trans-Labrador Highway, and the creation of a year-round seaport and distribution centre at Goose Bay were among possibilities for Labrador development held out by Mr. van Es. He also mentioned the possibilities of power development on the Lower Churchill, pulp and paper development, offshore oil and tourism for Labrador. Mr. van Es was speaking to the annual meeting of the Newfoundland

District of the Community Planning Association of Canada.

**OLD BUT NOT DECREPIT:** A 110-year-old woman, hospitalized in Los Angeles for the first time after breaking her hip in a fall, is reported "making better progress than many patients half her age". Maria Olguin, who speaks only Spanish, was born on a New Mexico farm and lived with her husband in New Mexico and Texas. She has 23 grandchildren, 50 great grandchildren and 14 great-great-grandchildren.

**"N?" TO MEN'S MEAL:** Toronto school trustees bowed to woemn's rights recently and refused to approve a men-only dinner. Trustees at the Toronto board of education's management committee meeting refused to approve spending \$750 on the traditional buffet supper for the coaches, teachers and judges at the boy's track meet.

## Editorially Speaking

**NOR REAL CHALLENGER:** Earlier this month Mr. John Crosbie, Progressive Conservative M.H.A. for St. John's West and formerly a member of Mr. Smallwood's Cabinet, was a guest on the C.B.C. nation television program, "Encounter." During the interview he stated that Smallwood's government was "corrupt, incompetent and dictatorial."

Several days later an editorial appeared in the Montreal Gazette headed "No real challenger." In commenting on Mr. Crosbie's remarks the Gazette editorial read; "It seems unlikely that the people of the province, who have heard all this before over more years than they care to remember, will opt for massive switch to the Conservatives, simply to oust Mr. Smallwood." It continued; "The trouble is that there is no one on the horizon with the personality, tough-mindedness and general stature of Mr. Smallwood. However it is difficult to fathom Mr. Smallwood's motives for seeking yet another mandate for his administration. It may be that he genuinely believes that there is no one available who is capable of doing the job." Has the Gazette editorial writer ever heard of an egoist?

Then the writer seems to have some second thoughts. "This is unfortunate, since after 20 years of undisputed power, it is evident that the replacement of the present regime by a fresh and progressive government would be in the interests of Newfoundland's political health." However that all in the future as he continues; "In his recent cabinet shuffles, where he retired some veteran ministers and brought in new and younger blood, Mr. Smallwood has given every indication that he is once again preparing to lead his party into one more election, probably in October. Even his most loyal supporter must hope that the premier will discover someone worthy to step into his shoes before another four years are out."

Then the article states there are no voices in the opposition; there is simply no alternative to another four or five years of Smallwood rule. Now everyone has the right to make his or her choice at the polls and they may very well decide to re-elect Mr. Smallwood. But to say there is no alternative is just not true. Mr. Frank Moores, P.C. leader has assembled a team of competent men that even the most die-hard Smallwoodite would admit is by far the best they have had to face in a Provincial election. Whether they can win sufficient seats to form a government; the people of this Province will decide within 45 days. In the meantime our advice to Montreal Gazette; "Why not check-out your own house first, especially the inactive Drapeau-Nidling Municipal Government."

## Provincial adoptions continue uptrend

Figures on adoptions of provincial wards for the month of July, 1971 have just been released by the Honourable Stephen A. Neary, Minister of Social Services and Rehabilitation.

"The number of children who have found parents and homes through our provincial adoptions program continues well ahead of even the record figures of a year ago," comments Mr. Neary. "To date well over 150 youngsters have been granted final adoption papers by the courts since our government year began in April; that works out at close to forty a month and is a pretty wonderful thing for these little children and also for those who become mothers and fathers through adopting them."

A recent comparison of the record of success of the Department's Child Welfare division in finding parents for provincial wards has indicated the soundness of present procedures.

"At times," says Social Services Minister Neary, "we

receive criticism and I receive personal calls complaining about what some eager parents regard as unnecessary delay and red tape in the processing of their applications.

"I myself used to chafe at what seemed to be unnecessary delays and have done what I can to eliminate any paperwork bottlenecks. But, since it is pretty difficult to quarrel with success, and since it is almost impossible to find a single failure among finalized adoptions, I am inclined to think that the precautions built into our procedures are really paying off in terms of happy children and happy adoptive parents."

As of August 1 children available and deemed suitable for adoption total 339, of whom 232 are boys and less than half that number, 107, girls. By religious denominations there are 196 Roman Catholic, 55 Anglican, 45 United Church, 24 Salvation Army, 14 Pentecostal, and 4 "other".

The wedding of Linda Lake, daughter of Mr. & Mrs. Lorne Lake of Labrador City, to Ross Avery, son of Mr. & Mrs. Lloyd Avery of Random Island, Nfld., took place on Saturday, August 14th in the Carol United Church, the Rev. Moore officiating.

Given away by her father, the bride wore a long white "A" line gown in logoda with lace sleeves and pink ribbon inserted guipure trim. Her matching chapel veil had an open crown also with matching guipure trim. She carried a bouquet of white and pink carnations.

Lorna Gibbons, as matron of honour for her sister, and Helen Lait as bridesmaid wore full length shamrock green shantung silk gowns and carried bouquets of white carnations.

Flower girl, Nancy Lait, wore a long white gown with bishop sleeves and carried a bouquet of pink and white carnations. Karen Mezzocca as train bearer wore a sleeveless midi-length floral gown.

Gerald Avery was best man for his brother and Bill Lake was the

usher. Blair Lake was ring bearer.

Mrs. Lake wore a long sleeved teal blue dress with black accessories. Her corsage was of white roses.

After the ceremony, a dinner party was held in the Caribou

Room of the Sir Wilfred Grenfell Hotel. Later, Mr. & Mrs. Avery left for Florida by car, the bride travelling in a white pant suit with red and white accessories.

Present for the wedding were Mrs. Louis Mezzocca and her daughter Karen of Dominion, N.S.

### Films Replace

St. Louis University, US, is introducing a revised freshman curriculum which will use films as a basic instructional medium. A film series will replace outside reading requirements for students in such required freshman courses as history, speech and English. The film series is an attempt to reorganize freshman study programs along interdisciplinary lines.

### Amusement parks

Despite the US recession, the amusement park business is booming. Once the preserve of gypsy-like carnival operators, amusement parks are now recognized as legitimate corporate enterprises. In fact, they may one day go multinational. Sea World, Inc., with parks in several states, is eyeing markets in Europe and South America.

### Advertising moving

Allan Yeates, vice-president of Ted Bates & Co. of New York, predicts that advertising is moving into an era of harder sell. Reduced budgets will cause advertisers to demand more for their ad dollar during the next ten years. Ads will be delivered harder, faster, more precisely and carry much more information.

## Scanning the Market

The floating of U.S. dollars and 10 per cent surcharge on imports has thrown world wide stock markets (other than U.S.) into a state of disarray. As we write this column a Canadian delegation is preparing to leave for Washington, hoping to have Canada exempt from the U.S. restrictions. It is estimated that billions of dollars worth of Canadian import to U.S. could be affected, by President Nixon's move. As things stand at the moment we would advise staying on the sideline until world wide chaos clears.

**JUNIOR INDUSTRIALS:** More junior industrials have been receiving attention in the analytical reports from investment houses. The analysts, however, are still fairly selective and cautious and probably none would suggest that any of the juniors will shoot up as they did in the last phases of the previous bull market. Rather, as the blue chips became more nearly fully priced, the analysts would appear to be seeking stocks which might do better, over the shorter term. Investors will of course appreciate, as the houses reporting on junior situations frequently indicate, that in seeking significantly higher short-term gains a higher degree of risk has to be accepted.

1. Consumer Distributing Co., reviewed by Kippen & Co., 1155 Dorchester Blvd. W., Montreal 102.

Rationale for company's recently announced joint venture with Oshawa Wholesale Ltd., is discussed. Kippen recommends stock for above-average capital appreciation.

2. House of Stein Electronic

Ltd., reviewed by Pemberton Securities Ltd., 744 West Hastings St., Vancouver 1.

Company has exclusive Canadian franchise of Sansul electronics line and sells and services audio, electronic and communications equipment through seven retail outlets in major centres. It is expanding into Europe this year with headquarters at Hamburg. Stock is recommended by Pemberton for above-average capital appreciation.

3. White Pass & Yukon Corp., reviewed by Equitable Securities Canada Ltd., 110 Young St., Toronto 1.

Equitable expects capital additions made during the late 1960s should shortly produce significant earnings increase. The study believes that confidence evidenced in the high price - earnings ration of approximately 25 will not be misplaced.

4. George Weston Ltd., reviewed by Merrill Lynch, Pierce, Fenner & Smith Inc., King St. W., Toronto 1.

Emphasis on profit maximization, has improved efficiencies and greater intercompany sales should contribute to higher future rate of earnings growth. Selling at 14 times Merrill Lynch's estimate of 1971 earnings of \$1.37, the stock is good for capital appreciation and income over the intermediate term, Merrill Lynch considers.

5. Harding Carpets Ltd., Grant Johnson Ltd., Suite 660, 2 Place Ville Marie, Montreal, did this review.

Study says the "A" shares are reasonably priced by past standards in view of the 15 per cent annual growth in earnings expected over the next five years.

6. Greyhound Lines of Canada Ltd., Maison Placements Canada Inc., 1330 Place du Canada, Montreal, reviews this firm.

Greyhound enjoys a seminomopoly in the rapidly growing travel field, Maison Placements says. The manufacturing division in finally reporting excellent profits after a few slow years. The stock can be considered an unrecognized growth vehicle, the study says.

7. Kaps Transport Ltd., Pemberton Securities Ltd., 744 West Hastings St., Vancouver 1, is the firm doing this review.

Report says that risk is minimal while appreciation potential is considerable.

8. Rothmans of Pall Mall Canada Ltd., reviewed by Merrill, Lunch, Pierce, Fenner & Smith Inc., 11 King St. W., Toronto 1.

9. Scott's Restaurants Co., Bongard Leslie & Co., 20 King St. W., Toronto 1, does this review.

Scott's is considered to be the best managed company in the food service industry. Bongard Leslie says. It has the Colonel Sanders Kentucky Fried Chicken franchise in Canada, but owns its outlets (102) and is not subject to the problems of companies which sell franchises. Bongard Leslie estimates 1971 earnings at .80 cents and this to rise to \$1.02 in 1972. This would put the price - earnings ratio, based on 1972 earnings, at about 10. Bongard Leslie expects a minimum of 30 per cent annual increase in sales and earnings for the foreseeable future.

10. Magnasonic Canada Ltd., reviewed by Kippen & Co., 1155 Dorchester Blvd. W., Montreal 102.

Since 1967 company sales have grown at 38 per cent per year compounded, and earnings have increased sevenfold. It has concentrated on building an excellent marketing organization for imported electronic and home-entertainment products. Kippen estimates earnings for this year at .70 cents and assuming issue of 200,000 shares, at .80 cents for next year. Recommended for capital appreciation where marketability of stock is not a major consideration.

With accelerating development of Canada's north and Alaska, in which Kaps operates with specialized equipment; Pemberton expects this company to benefit, and believes the stock offers above-average potential for capital appreciation.

### PRESS RELEASE

On August 12th., 1971, at the Ashuanipi Club in Labrador City, a meeting of all Locals of the United Steelworkers of America in the Area was held with the object of forming a District Labour Council. At this meeting representatives from all Locals were present, representing the 3000 Steelworkers in the Area.

At the meeting, the structure of the Labour Council's of the C.L.C. was adopted. The basic outline of policy procedures to be followed by the Labrador Council were discussed and accepted by all representatives present.

The Honourable Roy Legge, the newly appointed minister of Labour, who was in the area at the time, attended for a brief meeting with the representatives.

# Roaming The Globe

**YUGOSLAVIA'S ADRIATIC COAST, A BARGAIN AREA:** On Red Island, the tourists sleep in a medieval Benedictine monastery that also housed an Austrian count and admiral of the fleet. Or they cavort nude on a protected beach. Or they eat the local lobsters and drink the wine that is so dark that natives call it black instead of red. The island is only one part of the Rovinj tourist complex, which includes hotels, swimming pools, Adriatic beaches, skin diving, sailing, and island exploring. And Rovinj is only a small part of what Yugoslavia has to offer the tourist along its more than 400 miles of Adriatic coastline. Yugoslavia's coast is only two hours by fast hydrofoil from the Italian Adriatic, and it shares the sunny weather—hot summers and early springs, with warm autumns—that make it possible to swim into late October in the southern regions.

But one thing it does not share with its western neighbour is the prices. Although prices have risen considerably in recent years, Yugoslavia remains one of the travel bargains of Europe. A half-gallon bottle of wine is still a dollar, and a simple but adequate dinner for two—wine, salad, fish or grilled meat—seldom costs over \$4.00. Hotel rooms, doubles with bath, are usually under \$10.00 in Rovinj and cheaper in outlying areas. There are other travel bargains in Eastern Europe that are sometimes under Yugoslavia's, particularly when the traveller calculates the possibility of local currency deals that give him twice the official rate of exchange. In Yugoslavia, the local rate for the dinar is the same as it is the west—approximately 15 to the dollar.

Yugoslavia's tourist business is a mixture of state and private enterprise. Many of the best restaurants in the little fishing towns like Rovinj are privately owned. This is permitted under revisions of the Communist rules in recent years—now a proprietor

can employ up to five persons in addition to his family, without being guilty of exploitation. Most of the bigger hotels are state owned, but they are on the whole better run than those in the other Communist states. The main reason seems to be the economic reforms in Yugoslavia that have created competition among the various state organizations, and that provide for profit-sharing for successful organizations.

Rovinj's Jadran hotel enterprise is typical of this new competitive breed of state company. It runs hotels on the mainland, on Red Island, and on Katarina Island offshore. It has a villa colony on one cove and a camping area on another. The enterprise gives the tourist the choice of living in the middle of the village, with its narrow cobblestone streets, renaissance houses with walls sloping down to the harbor, and tall church steeple with a figure of a mariner at its top. Or, there are hotels tucked in the pines and tropical foliage on the edges of town, with their own swimming pools and views of harbor and town. The young executives of the Jordan—which means Adriatic in Serbo-Croat—enterprise have all the business they can handle at present but are preparing for more.

"We are presently building at the rate of one hotel a year," an official of the organization said. "Last year, it was really two—the 600-bed Eden Hotel, and the villa colony." Rovinj is halfway down the Istrian peninsula, about two hours' drive from Trieste, Italy, and accessible by air from Rijeka and Pula, Yugoslavia, as well as Trieste. Some sample prices for the high season, in July and August (September and October they are down 20-25 per cent: double rooms are \$7.60 a person. At the Park Hotel, about four years old and closer to town, they are \$5.60 a person for double occupancy. Out on the islands which are reached with a .40 cent

ferry ride, prices are lower—about \$4.80.

The villas, which are tile-roofed single storey cottages, built in the traditional Istrian style with walled-in back garden in a grove of olive trees, are from \$12.00 to \$18.00 a day. They contain one or two bedrooms and kitchen and bath facilities.

**TRAVEL BRIEFS:** Construction has begun on the Norwegian America Line's new 25,000 ton \$32 millions luxury cruise liner, which will join the company's present flagship Sagafjord in cruise service out of New York in 1973. Passengers will be limited to 550, in single and two-berthed staterooms, all with private facilities. The main ballroom and dining room, both overlooking the sea, will both accommodate all passengers in one sitting. The vessel is the first passenger ship to be built in ten years on the Tyne River, in the Neptune Yard of Swan, Hunter Shipbuilders Ltd. at Newcastle-on-Tyne, England. The ship has not yet been given a name.

A guide to hotels in England, Scotland, Wales and the Channel Islands, describing more than 1,200 hostels, is being distributed in Canada by Ashley Courtenay Limited, the publishers. Another edition covers 150 hotels in Ireland. The purpose of the guide is to acquaint visitors with the smaller and more remote hotels, where prices are lower, and there is less feeling of being a tourist.

The "Super 7—bus, designed to be the workhorse of the Greyhound fleet, has gone into service in the United States, with a total of 650 now delivered, at a cost of \$44 millions; and 375 more on order at a figure of an additional \$25 millions. The vehicle is climate-controlled, has reclining seats, and is rest room equipped.

A series of 14 cruising expeditions to popular destinations and to remote parts of the globe has been prepared by Linblad Travel Inc., for the M.S. Lindblad Explorer in 1972.

## DAILY LIGHT

Br D. R. Parsons

Psalm 51 continued.

Create in me a clean heart, O God; and renew a right (persevering and steadfast) spirit within me.

Psalm 51:10

This past decade has seen marvelous advances in medical science; none as astounding as the methods and technical advances concerned with heart surgery. What miracles are now performed on the human heart! All glory to God who has in His wisdom and in His time imparted this knowledge to mankind!

But what is indicated by this verse is not mere heart surgery; the word is create: The Scriptures do not promise repair, rejuvenation, pacing; they only promise renewal. The old heart must be done away with in its corruption and sin, and a new heart must come from the process of being "born again" by the Spirit of God through the sacrifice of Christ's atoning blood at Calvary.

The "right, persevering and steadfast" spirit can only come from a "right heart." What the Psalmist asks for here is a new heart which is upright and moral, and firm in all the purposes of

virtue and integrity. He longs for a heart which would seek out the holiness of God; one which would not yield to temptations; one which would be steadfast and sure in the service of God. It is the cry of one who knew the deceits and degradation of the old heart, and longs for the peace and satisfaction of one created anew.

Often we spend our days humming a "catchy" tune, or repeating the words of some crazy commercial; what victory we would gain if it was our practice to have this prayer constantly on our lips: It may be that we have a new heart, that we do belong to Him through faith in Christ, but there is ever that need of the Holy Spirit's working within us to achieve that right, persevering and steadfast spirit. He works only as we yield to Him and allow His work within us.

When company comes, we sometimes spend hours cleaning and carrying out old "junk", cleaning up for company. We also have a lot of "junk" to throw out of our lives if the Holy Spirit is to come and live in us. In fact, He will even help us throw it out; if we allow Him. May this be our prayer today, "Create in me a clean heart, O God; and renew a right spirit within me.

# Speaking Of Sports

**SOFTBALL:** Congratulations to the Wabush team, 1st place winners in the L.C. Senior "A" League. This team copped top spot in regular league standings by virtue of a close 5-4 win over the Saints, in a special play-off game. Wabush continued on their winning ways, in the opening game of the semi-finals, with another squeaker; defeating 3rd place Braves 11-10. At this writing, Saints and Carol Cleaners, had yet to play their first game.

L.C. "B". Understand Indians won their opener over Juniors. However in the other final series, Cafeteria "Chefs", pulled a big upset of Bechtel Builders and are now "one-up".

L.C. Ladies Senior: Here again a play-off was required before a 1st place winner was declared, as both Handy Caps & Lionettes finished with identical 13 win-2 loss records. Handy Caps were victorious in the special play-off game and thus took number one spot.

The Bay were third 6 wins - 9 losses; followed by Woolworth's & Indians, both of whom had 5 win - 10 loss records. In the second play-off game Indians defeated Woolworth's, thus gaining the fourth and final play-off spot. I.O.C.C. had a 3 win - 12 loss record and finished in the cellar.

In the opening game of semi's, The Bay pulled a terrific upset by defeating Hand Caps 13 - 9. In the second section Lionettes lead Indians 1 - 0.

L.C. Minor: Still a few more games before winners are declared. (All teams must play 14 games). Latest statistics:

Senior:				
Team:	G.P.	W.	L.	Pts.
Leigon	10	8	2	16
Target Taxi	10	6	4	12
Braves	8	4	4	8
Carol Painters	11	4	7	8
Mussens	9	2	7	4
Junior:				
Team:	G.P.	W.	L.	Pts.
O'Brien Hall	14	8	6	16
City Motors	11	7	4	14
Lions	11	6	5	12
Leigon	14	6	8	12
Desrosier's	12	5	7	10
Ward & Boyack	9	4	5	8

**SOCCKER:** Understand our first string all star team proved far superior to Schefferville, in the first game of the recent series. However the local second string team and the visitors played on equal terms.

Too bad the All-Stars don't play more exhibition games; many fans claim they could "stack-up well" against any first division team in the Province.

**TENNIS:** Junior tournament was held last week and on completion the annual closed Senior & Veterans Tournament started on 21 August. This is expected to be completed Saturday or Sunday.

Here are the results of Nfld. Open held here earlier this month. In the mens single Dale Power (ranked No. 2 in Canadian closed held at Winnipeg recently) was leading Dave Brown (ranked No. 5 in the same event) 3-2 in second set (Brown had defeated Power 6-4 in the opener), when game was called because of injury. Both boys are attending University of Oklahoma on Tennis scholarships and are almost sure bets for next year's Canadian Davis Cup team.

Women's Doubles were won by M. Martin & M. Hitchens of Riverdale, St. John's. Miss Martin also captured the Ladies Singles. Ray Gallagher & Marg Hitchens were victorious in the Mixed Doubles.

In Lever Cup Play, Riverdale (St. John's, Nfld.) defeated Cariboo (Labrador Coty) 3-2 to regain Provincial Club Championship. Local victories were gained by D. Crawshaw in Men's Singles and B. Brown & R. Roy in Men's Doubles. Riverdale winners were M. Hitchens over P. Leonfellner in Ladies Singles. J. Russell & M. Martin over H. Davis and Mrs. Spitznagel in Mixed Doubles. And Russell & Rowe over Spitznagel & Whitfield in Ladies Doubles.

L.C. SUMMER REC. PROGRAM: This year's program wind's up on Friday with a Wiener Roast at the Playground. Several hikes, to Crystal Springs, were scheduled earlier in the week.

Returning a visit to Corner Brook, by a group from Labrador City, earlier this month; ten people from the island spent last weekend here. Aurora was informed by Ray O'Brien that the trip to Corner Brook was very enjoyable, with horseback riding, boating, tours, etc. While here the visitors were scheduled to be taken on a boat trip, have a party at High School, see last Sunday's Pro fights and were given free theatre tickets (compliments of Royal Theatre).

All in all it seems the summer program, could be considered successful, although weather conditions were anything but ideal. We understand, however that probably the two most popular activities, had their draw-backs. Indoor swimming. The L.C. Arena temporary pool was crowded daily and consideration should be given to erection of a permanent pool. Outdoor Tennis. The large number of interested junior were handicapped by poor weather conditions and it is felt enclosed courts are the answer.

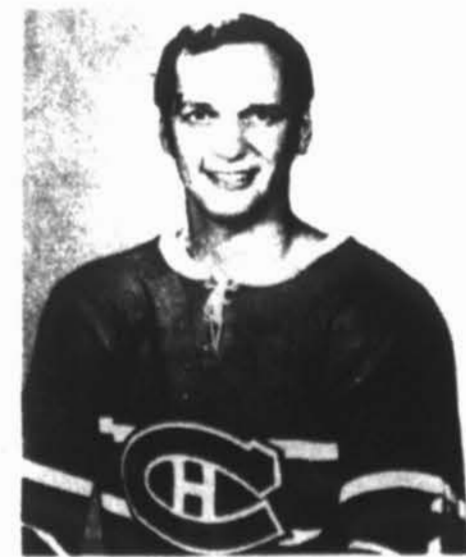

Mr. and Mrs. Bruce Brown, recipients of a plaque and gifts from the Wabush Tennis Club for their assistance over the past season.

Reg Dechaneau, winner of the Tamarack Invitational Tournament, being presented with his trophy by club president, Blake McCullough. Reg. also won a return ticket for two to Montreal.

## HOCKEY SCHOOL

A Hockey School is definitely on for 28 Aug. - 1 Sept. The school will be conducted by Claude LaRose and Jacques LaPerriere. Terry Harper, John Ferguson and "The Big M" Frank, will visit on the final day of the school.

The charge will be \$25.00 for one boy in family attending, \$15.00 for the second and \$10.00 for the third. Please complete the form below and forward to L.C. Arena before 25 August 1971.

Registration Limited:

## Here and There

**SEXY-FROM HEAD TO TOE:** Of the 200 girls asked in a British fashion survey what was the sexiest part of their body, 65 replied their legs. Thirty of the girls, aged 16 to 23, rated their breasts their best asset, while 15 threw their weight behind the bottom. Only ten of the 200 chose their face.

**CONTRACT AWARDED:** Minister of Transport Don Jamieson recently announced that J.P. Porter of Montreal was awarded a \$167,700 contract for harbor dredging at Goose Bay. The work is a necessary step in the Melville Pulp and Paper operation and will facilitate the shipment of raw materials for the Stephenville linerboard mill.

**NOW IN FAVOR:** A poll by Lou Harris reports that Americans have reversed themselves and now favor admission of Communist China to the United Nations by 48 to 27 per cent, with the remaining 25 undecided. Just after the 1968 U.S. elections, the count was 54 to 32 against, and in 1964 the anti-admission majority was an overwhelming 73 to 10.

**SEALING CONCRETE:** A Dutch company specializing in the manufacture of facade and wall facing has developed a machine to seal the hundreds of little holes which occur in concrete ceilings as a result of air bubbles formation during production. The machine has a hydraulic motor which drives four felt-covered discs. Each of the discs has a diameter of 14 inches so that it is possible to even off a 28-inch-wide band of ceiling in one run. The discs have a speed of 120 rpm and the compressor rotates 750 times a minute. Grinding discs or brushes can also be fitted on the machine for grinding off irregularities on concrete ceilings and for final brush cleaning.

**SOCKS IT TO HIM:** Former Italian beauty queen Ileana Acerbi, 22, is throwing soccer star Bruno Mora, 33 off his game by shouting for him to lose at every match he plays. She brings her four-month-old son with her, and explains to the crowd that Mora is his father but reneged on a promise of marriage. "This is vendetta to the end," said Miss Acerbi. "Bruno has had me fired from my secretarial job, and now I'm suing him for material and moral damages."

**FAST KEYBOARD:** The Dvorak system of typing with its simplified keyboard is now available in Canada. This keyboard is scientifically arranged on the basis of the frequency of use of letters and letter patterns and sequences in the English language. As a result, it is claimed to be easier to master, more accurate faster and less fatiguing. Tests have shown that one year's experience on the

Dvorak simplified keyboard gives better results than three years on the standard. People trained on standard machines can adapt easily to the new keyboard. (Two major U.S. newspaper--New York Times and Miami Herald--are converting all typewriter and typesetting keyboards to the Dvorak layout.)

**ONE MAN'S MEAT:** Ethel Flear, 50, takes rat poison every day to stay alive. It's doctor's orders. Mrs. Flear, of Irchester, England, started her unusual diet of warfarin after an operation to replace her heart valves with two stainless steel valves. Warfarin kills rats and mice by causing internal bleeding. But the property that causes bleeding also stops bloodclots from forming on Mrs. Flear's artificial valves.

**OPPOSITE EXTREMES:** Retired madam Sally Stanford has given up liquor--and her fashionable San Francisco restaurant--for carrot juice and the country. Miss Stanford, Frisco's best know bawdy house operator, is buying a 250-acre ranch in Sonoma County and will turn it into an organic food health spa. "I am totally concerned with restoring people to health and doing what I can for young people", the former madam said.

**JUDGE URGES EXECUTION FOR PUSHERS:** A Cambridge, Mass. superior court judge believes persons convicted of

selling heroin should be executed. "The citizens of this commonwealth ought to re-examine their attitude toward capital punishment," Judge Henry H. Chmielinski Jr. said recently. "It should be invoked against those who are heroin pushers." About 75 per cent of crime is the result of drugs, he said, and addicts must resort to violent crime or prostitution to support their habits. The judge said when he first went on the bench eight years ago he handled one or two drug cases per month. "One morning recently, I handled 58 drug cases, more than half of them involving heroin," he said. Chmielinski said Spain and Iran do not have drug problems. "I visited Iran recently. Four men were arrested for illegal sale of drugs. They were found guilty and the next morning taken out and shot by a firing squad," he said. The judge made his remarks to a jury pool which was to be dismissed after concluding its service.

**SATO TEES OFF ON MINISTERS:** One of the first instructions Prime Minister Eisaku Sato of Japan, issued to his new cabinet ministers was not to play golf on working days. Sato said the ministers, appointed recently, must set an example to the public and demonstrate that they are "morally clean politicians," the Kyodo news agency reported.

### NEWFOUNDLAND GOVERNMENT EMPLOYEES' ASSOCIATION REQUIRES

### EMPLOYEE RELATIONS OFFICER

St. John's, Newfoundland

The Association, which represents employees of the operating Departments and Agencies of Government, requires an Employee Relations Officer.

" AT WOOLWORTH'S LABRADOR CITY "

# The Lighter Side

**AT LAST, THE JACKPOT:** The widow Jones told a neighbour that her late husband had been very unfortunate all his life but that things had changed near the end.

"How do you mean?" queried the neighbour.  
 "Well," replied the widow, "when they dug his grave, they struck oil."

**RATHER ROBUST:** It seems a certain Professor Tupper was a great hand at exploring and digging in ancient ruins, but when it came to making love, he was a pretty awkward fellow. One night, however, as he rested his head on his beloved's bosom, he felt impelled to express himself.

"You know, dear," he mused happily, "resting here like this gives me great happiness. Only once before in all my life have I felt so relaxed."

"When was that?" asked his girl friend suspiciously.  
 "One night in Egypt," explained the professor innocently, "when I camped between two of the Pyramids."

**SIGNALS:** Marriage is like a railway sign: You see a lovely girl, and you stop. Then you look. And after you're married, you listen.

**RAPIDITY:** "We make a great point of accuracy in teaching shorthand and typing," declared the head of a secretarial school. "What about speed?" asked a prospective pupil.

"Let me say this, young lady," came the quick response, "out of last year's class, nine of the girls married some executive within six months."

**BE REASONABLE:** The cop stopped the man from jumping off the bridge. "If you jump in," pleaded the cop, "I'll have to jump in after you. It's freezing cold and while we're waiting for the ambulance we'll both get pneumonia and die. Now be a good fella and go home and hang yourself."

**HAPPY ANNIVERSARY:** When the husband started about his business as usual the morning of his 25th wedding anniversary the wife was rightfully annoyed.

"Don't you realize what day this is?" she asked.  
 "Sure I do," he replied.  
 "Well, let's celebrate by doing something unusual."  
 He meditated for a moment, then he suggested quietly.  
 "How about two minutes of silence?"

**HAPPY HONEYMOON:** Here's one about some newly-weds. On the morning after their marriage, the bridegroom finally separated himself long enough to go down to the lobby for a morning newspaper.

When he returned, he was shocked to find his bride in the arms of a bellhop. She looked up at her husband coyly and remarked "I bet you think I'm an awful flirt."

**ALTERATIONS:** A new preacher called to serve a very poor church, told the congregation something would have to be done about the churchhouse; The roof was leaking, the windows were broken out, the floor was full of holes, the elder bushes were growing through the windows, "what must we do?" asked a member. "Well, said the pastor, "the first thing to do is to cut the elders. An old sister rose and shouted, "If you cut the elders, you's better cut the deacons too!"

**THE ABSTAINER:** Two men entered a bar and took seats.  
 "What'll you have?" asked the bartender.  
 "Make mine a martini," one man said.  
 "Martini," repeated the barkeep, making the order down on his pad.  
 "What about the fruit?"  
 "Oh, he doesn't drink."

**HONEY:** They were honeymooning in England. He left the hotel room after all, y'gotta eat sometime. When he returned he noticed, frantically, that there were no numbers on any doors. In trying to find what he thought was his room, he knocked on a door gently, purring, "Honey, honey, honey honey."  
 From within came an answering hellow, "Go away. you blooming idiot. This is a bathroom, not a beehive!"

**NOT DUMB:** A father decided his small son was a little off the beam. He took him to a psychiatrist who asked the boy a few questions.  
 "How many wheels does an auto have?"  
 "Four."  
 "What is it a cow has four of that a woman has two of?"  
 "Legs."  
 "What does your father have that your mother likes most?"  
 "Money."  
 The psychiatrist turned to the father and said, "This boy is smart." The father said, "I guess so. I missed the last two questions myself."

## From The National Press

**VENEREAL DISEASE:** (Canadian Press). With millions of dollars being set aside to fight the disease in Canada, the alarm has gone out from health clinics and hospitals that venereal disease, soaring on the wings of ignorance and freedom, has reached epidemic proportions and that this year 150,000 people will become infected. A Cross-Canada Survey by the Canadian Press shows that the most prominent age group with syphilis and gonorrhoea is the one between 15 and 24 years.

In Manitoba, during the first two months of this year alone, 517 cases of gonorrhoea were reported compared with 361 for the same period last year and 50 cases of syphilis turned up on record compared with only 30 during the same eight-week period in 1970. Dr. Emmanuel Snell of Winnipeg, director of the province's preventive medical services branch, said control measures adopted in Manitoba can't be effective unless other areas take proper steps. "If control measures break down anywhere else in Canada or the United States, the effect on our situation can be devastating." He said doctors are barely managing to cope with what termed an epidemic situation in Manitoba.

The Cross-Canada Survey revealed these statistics of venereal disease throughout the country in 1970. The figures came from both the federal and provincial records. These represent reported cases only; and health officials estimate that for every case reported there at least three or four unreported ones.

British Columbia—gonorrhoea 6,010; syphilis 364.  
 Alberta—gonorrhoea 4,290; syphilis 139.  
 Saskatchewan—gonorrhoea 2,191; syphilis 140  
 Manitoba—gonorrhoea 2,856; syphilis 235.  
 Ontario—gonorrhoea 8,386; syphilis 970.  
 Quebec—gonorrhoea 4,569; syphilis 390.  
 New Brunswick—gonorrhoea 528; syphilis 9.  
 Nova Scotia—gonorrhoea 989; syphilis 246  
 Prince Edward Island—gonorrhoea 21; Syphilis 1.  
 Newfoundland—gonorrhoea 461; syphilis 1.  
 The Yukon and Northwest Territories reported 30 and 944 gonorrhoea cases respectively in 1970 and five cases of syphilis each.

**INCENTIVES TO CONTROL POLLUTION:** (Financial Times). Most companies which decide to invest in equipment to clean up air and water pollution at existing plants can get special tax treatment. The federal government allows any company which buys such equipment to depreciate it at 50 percent a year. This means the full cost is written off in two years. The water pollution regulations have been in effect since 1965, and the same treatment will be given air pollution control equipment this year. Each project has to be approved by officials in Ottawa. But it is believed that International Nickel Co. of Canada Ltd.'s sulphuric acid plant would have qualified for fast write offs.

This special allowance is available to companies located in any of the 10 provinces when calculating both federal and provincial taxes. But it does not

seem to apply to pollution abatement devices which are part of new production equipment. Nor does it apply to equipment which recovers by-products of pollution, unless these by-products were being discarded before 1965. In addition to the federal proposals, Ontario and British Columbia offer other incentives. Ontario actually offers money to companies which introduce pollution control equipment.

Beginning in 1970 for five years, the province will give grants equal to the retail sales tax paid on approved abatement equipment. The Ontario Development Corp., a Crown agency, will also make loans to small businesses at favourable interest rates to help them purchase anti-pollution equipment. These loans are only available to businesses which need the money.

British Columbia has decided to exempt pollution treatment plants and equipment from provincial property taxes.

A number of industries, especially pulp and paper companies, have been pushing the federal government for further tax relief. They would like pollution equipment to be free of the 12 percent federal sales tax charged on all machinery and equipment.

Mining industry officials were in Ottawa last month to discuss methods of reducing the cost burden of installing anti-pollution equipment.

**PICKING THE TAXPAYERS' POCKET:** (Gazette). Information Canada was conceived as a relatively small agency to co-ordinate the work of the information branches of government departments. It was to be manned by super-flacks who would impart the gloss of professionalism and coherency to the often amateurish and incoherent releases from the departments. So far, all Information Canada seems to have done is to give the information branches an example of empire-building which they have been eagerly following. Since its establishment last spring, the staff of Information Canada has grown to 381 for an annual salary cost of \$2,859,637.00. It proposes to keep on growing until it reaches an establishment of 500 staffers.

The information branches, not to be outdone, have in the meantime increased their total staff for 900 to 1,002 with an accompanying increase in salary cost of from \$8,653,008.00 to \$9,201,906.00. The Post Office has increased the staff in its information branch from 25 to 35, the better, one supposes to tell us what's wrong with the mails. The information branch of the Department for Economic Expansion has been increased from 48 to 54, exemplifying those very qualities for which the department stands.

In this respect, Information Canada is serving ideally the purpose for which it was established, setting deed to the word in telling us what government is all about. What else but an exercise in proliferation at the taxpayers' expense?

#### PUBLISHED BY AUTHORITY

The following regulations have been made by the Board of Trustees of the Local Improvement District of Labrador City under the provisions of the Local Government Act 1966, and were approved by me on the 11 day of August, A.D., 1971.

H.U. Rowe,  
Deputy Minister of Municipal Affairs.

#### REGULATIONS

1. Interpretations. In these regulations unless the context otherwise requires:-

(a) "Act" means the Local Government Act, 1966.

(b) "Board" means the Board of Trustees of the Local Improvement District of Labrador City constituted under the provisions of the said Act.

(c) "Local Improvement District" means the Local Improvement District of Labrador City as defined by paragraph 2 of Order-in-Council dated the 27th day of June, A.D., 1961, and made under the Local Government Act, 1966.

(d) "Building" includes every structure, erection, excavation, alteration, or improvement whatsoever placed, on, over, or under the land and every part of same, and any chimney, porch or other structure used in connection with such building.

(e) "Dwelling" means a building used as a residence.

"Assembly Rooms" shall mean any room other than a habitable room, business or work room used by persons assembling for civic, political, religious, educational social, recreational or amusement purposes.

(g) "Inspector" means any person appointed as such by the Board.

2. The Inspector shall enforce all the building laws and regulations of the Local Improvement District and shall make a record of any violation thereof, stating the nature of the violation, the street or locality at which any violation is found, the owner of the building, the architect and master mechanic employed, and any other matter in his judgment proper to be recorded and shall report such violation to the Board who shall forthwith take such action as may be necessary to compel compliance with the law. The duty of the Inspector shall be, during the progress of the construction, repair, alteration, removal or demolition of any building for which a permit has been issued, to inspect the work from time to time and ensure a strict compliance with all the provisions of the Act and all other laws, rules, regulations and bylaws applicable thereto.

3. Except with the prior approval in writing of the Board, every dwelling and every automobile service station, shop, restaurant, office, school, church, club, lodge, hall, lounge, theatre, warehouse, hotel, canteen, industrial building, and every assembly room, shall be located on a lot of dimensions which in the opinion of the Board shall be adequate having regard to access to and exit from such buildings, parking space for vehicle, and access to highways and such other factors relating to the use, water supply, sanitation,

safety and appearance of such buildings as it may deem relevant.

4. No building or any part of any building shall hereafter be constructed except in conformity with the provisions of these regulations and all other laws, rules and regulations which may be applicable thereto.

5. Except as specifically permitted by the Act, all alterations, additions, or repairs made hereafter, whether to existing buildings or to buildings hereafter erected, shall conform to the requirements of these regulations except with the permission of the Board in writing.

6. Any existing building which for any reason whatsoever requires alterations or repairs at any one time equal to or in excess of fifty (50) per centum of the cost of erecting a new building of the same character and dimensions, such cost being calculated without including the cost of construction cellars or chimneys, shall be made to conform to the requirements of these regulations and all other laws, rules and regulations applicable thereto or shall be demolished.

7. No person shall erect, construct or repair any building within the Local Improvement District unless a permit for the erection, construction, or repair of such building shall have been first issued by the Board.

8. Every application for a permit to erect, construct or repair any building shall be accompanied by plans and specifications.

9. The plans and specifications shall set forth:- (a) The use or purpose for which the building is intended.

(b) The location and dimensions of the lot to be built upon.

(c) The heights and dimensions of the proposed buildings.

(d) The sewer and water connections.

(e) The materials to be used.

(f) Outside finish.

(g) The name of the builder.

(h) Any other information as the Board deems requisite in any particular case.

10. (1) No person shall erase, alter or modify any drawings or specifications upon which a building permit has been granted by the Board unless the Board has agreed to such changes.

(2) If during the progress of the work it is desired to deviate from the plan filed with the application for a building permit in any manner effecting the construction or other essentials of the building, notice of such desired alterations, together with new plans and specifications shall first be given in writing to the Board whose written approval shall be obtained before such alterations are commenced.

11. Any building permit issued by the Board under the provisions of these regulations shall:

(a) BE ACCOMPANIED WITH A DEPOSIT IN THE AMOUNT OF TWO HUNDRED DOLLARS (\$200.00). THIS DEPOSIT WILL BE RETURNED TO THE APPLICANT WHEN THE BUILDING CONSTRUCTION IS COMPLETED IN ACCORDANCE WITH CONDITIONS UNDER WHICH PERMIT WAS ISSUED.

(b) expire unless building

construction is started within six months from date of issue.

12. The Board may revoke any permit issued under the provisions of these regulations or may stop the work for any of the following reasons:

(a) When construction is discontinued for a period of one year.

(b) When, in the opinion of the Board, the completion of the construction has been unduly delayed.

(c) Whenever there has been a violation of the provisions of these regulations or any law, rule or regulation applicable thereto.

(d) Whenever the continuance of the work becomes dangerous to life or property.

13. The revocation of any permit shall be by notice in writing and shall be served upon the owner, his agent, or the person having charge of the work. A revocation by notice shall also be posted upon the building by the Inspector, after such notice is received or posted, it shall be unlawful for any person to proceed with any work for which such permit was issued.

14. The Board may require an applicant for a permit to give notice of the application by letter to any persons whose interest may be affected by any proposed construction, alteration or repairs, or may require by any proposed construction, alteration or repairs, or may require notice of such application to be given at the cost of the applicant by public advertisement in a newspaper circulating in the Local Improvement District.

15. There shall be kept posted in a conspicuous place, on the premises where any work, matter or thing is being done for which a permit has been issued, a copy of such permit, or a poster in lieu thereof as supplied by the Board, during the whole progress of said work, or the doing of the said matter or thing, until completion.

16. The Board may refuse to issue a permit for any building, the size, design, or appearance of which, or the location of which, or the use of which is in the Board's opinion unsuitable for the locality in which it is proposed to be erected, or inferior in general character to other buildings in that locality.

17. No building shall be moved to a new location unless a permit for such change of location and removal has been first obtained from the Board.

18. A change of location of a building shall be considered a re-erection of such building and be subject to all provisions of the regulations.

19. (1) All foundation walls supporting masonry construction shall be built of masonry or reinforced concrete. Wood frame construction shall be supported on walls or piers.

(2) This regulation shall not apply to the foundations of detached garages or similar accessory building of not more than one storey in height.

20. No detached dwelling shall be built less than two feet from the side lines of the lot on which it is located, and no semi-detached dwelling shall be built so as to have the exposed sides thereof less than two feet from the side lines of the lot.

21. No person, except with the approval of the Board in writing, shall erect any building at a

distance of less than twenty (20) feet from the lot line.

22. Every building hereafter erected on any road or street shall have the side thereof fronting on the said road or street parallel, or as nearly as possible parallel to the said road or street.

23. (1) No door or gate shall be hung so as to project over the street more than twelve inches when fully open except that in buildings used as places of assembly at the date of the passing of these regulations, existing doors may open over the street, and if to remain open shall be fastened flat against the main street walls of such buildings in a fashion approved by the Inspector.

(2) No entrance step or steps to any building shall extend beyond the street line.

24. (1) It shall not be lawful to discharge any spout or rain conductor directly upon a public street. Such spouts or rain conductors shall be connected with a drain or sewer leading from the building to which such spout or conductor is attached.

(2) Nothing in this section shall be deemed to authorize the projection beyond the street line of anything which has not been specified.

25. Every floor area used or intended for use as a place of assembly for one hundred or more persons, shall have direct access to not less than the number of exits indicated in the following table.

#### TABLE

Number of Persons: 100 to 600;  
601 to 1200; More than 1200.

Number of Exits Required: 2;  
3; 4.

26. Where a floor is required to have two exits, they shall be placed as remote from each other as practicable. When more than two exits are required, they shall be distributed as uniformly as practicable throughout the space they are to serve.

27. Every required exit shall lead, either directly or through a required passageway or hallway, to a street or to an open space communicating with a street.

28. (1) All doors in exit doorways shall open in the direction of exit travel, excepting doors in residential occupancies and doors serving only a ground floor area of not more than fifteen hundred square feet; provided that this requirement shall not prohibit the use of doors swinging both inwards and outwards, nor of sliding doors to stables, garages, or shipping or receiving rooms of business and storage buildings.

(2) All doors, whether exit doors or not, which lead from rooms occupied by fifty or more persons shall be hung to swing in the direction of exit travel.

(3) No exit door shall open immediately on a flight of stairs, but shall open on a landing of which neither the length nor width shall be less than the width of such doors. No riser of any flight of stairs shall be located within one foot of the jamb of any exit door.

29. Fastening on any required exit door shall be such that the door may be readily opened from the inside without the use of keys; provided that this equipment shall not apply to doors of rooms where persons are under legal restraint. This requirement shall

not prohibit the installation of locks on doors of floor areas, such locks to be used only when such spaces are not occupied by any persons. Draw bolts or chains shall not be used on doors to places of assembly at any time. No entrance or exit door serving a place of assembly shall be fastened while occupied in any manner except by self releasing latches, panic bolts or similar devices which can be opened from the inside without the use of keys.

30. All chimneys and smoke flues shall be built of brick, concrete, stone, hollow tile of clay or concrete, concrete blocks, or reinforced concrete, and shall be not less than four inches thick on all sides. Any deviation from above, particularly the use of funnelling, shall only be by special consent of the Board.

31. Chimneys shall be built upon concrete or solid masonry foundations. The footing for an exterior chimney shall start below the frost line, or at a minimum depth of seven feet.

32. (1) The Board or any person appointed by the Board may enter and inspect any burnt, dilapidated or dangerous building, or any dwelling which is suspected to be unfit for human habitation, and the Board may, after due notice in writing to the owner of the same or his agent, adjudge the same to be a nuisance and may make an order in writing prescribing such disposition, alteration or regulation thereof, or the destruction thereof as the Board may deem necessary.

(2) If the order of the Board issued under the authority of the provisions of paragraph (1) of this regulation is not complied with or is not so far complied with as the Board may regard as reasonable within twenty days after the service thereof, then such order may be executed by the Board through its officers, agents, employers or contractors, and the cost of such execution may be recovered from the owner at the suit of the Board as a civil debt.

(3) If the owner of such burnt, dilapidated or dangerous building or dwelling unfit for human habitation cannot be found within the area, the Board may service an order made under paragraph (1) of this regulation by posting it in a conspicuous place on such building and, if the order is not complied with, or is not so far complied with as the Board may regard as reasonable within twenty days after the posting thereof, the Board may cause such building or dwelling to be pulled down and the debris thereof removed, and the cost of such pulling down and the removal may be recovered from the owner at the suit of the Board as a civil debt.

33. Any person violating any of the provisions of these regulations shall be guilty of an offence and shall be liable on summary conviction to a penalty not exceeding one hundred dollars or in default of payment of such penalty to imprisonment for a period not exceeding three months.

34. These regulations shall come into effect on the 23 day of Aug. A.D., 1971, and may be cited as the Local Improvement District of Labrador City (Building) Regulations, 1971.

# DRIVE CAREFULLY— Give the kids a brake!

DON'T  
CUT SHORT  
A CHILD'S  
LEARNING...  
**DRIVE  
SAFELY**

**school opens wednesday sept. 1st.  
-so slow down!  
protect our children's lives**

On the first days of school you can expect to see our youngsters running across streets without looking, forgetting to obey the traffic signs and signals. That's why we must be a little extra careful, slowing down near schools and watching all traffic signals. Our kids' safety is our responsibility.

They are on the Technical Training Course at Cadet Summer Training School, CFB Borden. There are 550 young men from cadet units across Canada at the school for six weeks. Cadet Paul is a member of 191 Squadron RCAC.

THE BIBLE TODAY

A nomadic tribe in Borneo will soon have in their hands the first book ever to be printed in their native language - translation of the Acts of the Apostles, published by the Bible Societies. This latest edition to the steadily increasing number of languages in which Scriptures are available for the world has been produced in Edinburgh by the National Bible Society of Scotland, and is an example of international and interconfessional cooperation involving missionaries, national Christians, and the Bible Societies. The completed Scriptures have been dispatched to Borneo, where they will be distributed among the Penan people as they follow their nomadic life around the upper reaches of the Baram River. There are some 500,000 members of the tribe, of whom about half are Christian. A strong evangelical church has grown up as a result of the pioneer work of the Borneo Evangelical Mission.

Probes the structure

Whitman Richards, assoc. professor of psychology at MIT, says that haullucinatory visual displays that are seen before migraine headaches provide information on the structure and arrangement of nerve cells in the visual cortex of the brain. The neural organization appears to be a hexagonal lattice or a honey-comb arrangement, which is one of nature's most economical structures.

## For your information

**ED. NOTE:** Unfortunately people who used our drop-boxes in Wabush last week will not have their notice's published in this issue. Vandals broke locks on both and removed material. We hope to have repairs made in a few days.

**RED SHIELD APPEAL:** According to Captain Roy Bungay the final figure for 1971 Campaign was \$2,600.35. The Campaign Director expressed his thanks and appreciation to all who assisted and donated to this year's appeal. Stating, many will be helped by the monies received.

For Information about UNICEF Cards contact Amo Chesley P.O. Box 556. (or phone 944-5673 up until Sept 1, 71)

**DROP-IN CENTRE:** The Wabush Recreation Centre now has a DROP-IN room available for teens. It will be opened between the hours of 12:30 p.m. and 11:30 p.m. daily. Except for special events, which will be announced before hand.)

### NEW TWIN TOWNS' FACILITIES FOR ANIMAL LOVERS

The Society for the Prevention of Cruelty to Animals opened an animal shelter and clinic in Labrador City in July. This commendable voluntary effort by public spirited people in Labrador West provides yet another facility in our rapidly expanding community.

During the last three years, by means of raffles, collection boxes in stores, bake sale, dances and donations from the general public, small sums of money have been raised with the objective of providing a shelter for all lost or strayed animals in need of food, comfort and protection until claimed by their owners. Funds have also been augmented from boarding fee charges from pet owners who leave their

animals behind when they go on holiday.

Professional veterinary service is supplied by Dr. K. Lachapelle, D.V.M., V.S., of Quebec City. Dr. Lachapelle, accompanied by veterinary assistants, visits the area for the purpose of holding animal clinics in the Society's building complex. The dates of these visits are announced on notice boards of all major stores, the theatre and in the local press. Dr. Lachapelle is the only professional veterinarian visiting the Labrador West area under Society sponsorship.

Persons requiring information about lost or found domestic pets or assistance in the procurement of same are invited to contact members of the organization. Veterinary services in emergency circumstances are available on application to the Society. Specialist treatment, routine checkups and surgical operations can be arranged to coincide with Dr. Lachapelle's routine visits. As his schedules are well filled, it is advisable to make prior arrangements with the S.P.C.A. member responsible for booking and scheduling of appointments. In Labrador City the number is 2384 and in Wabush 3382, in emergency call 2152.

Cordial greetings were extended by Premier J.R. Smallwood to the Labrador Branch of the Food Service Executives Association. The Premier said: "I believe that the formation of this first Branch in the Province of Newfoundland and Labrador is a most important step in ensuring a high standard of performance in the food service industry, a standard which I believe so important to the development of our tourists industry and to the people who avail themselves of food service."

The Labrador Branch of the Food Service Executives Association received its Charter on June 6, 1971. The Branch conducts

regular educational meetings for its members, arranged last week two nights of entertainment for the men working at the Churchill Falls Power Project & a free puppet show for the children and is presently planning a Crusade for Nutrition for the poor and needy at the coast of Labrador.

Ted Aben, President of the Labrador Branch, will be flying this week to Milwaukee to attend the 70th annual international convention of the Association.

"The discrepancy between the promises of the Economic Development Conference and the realities of the DREE program are startling. As usual, the south coast was completely left out. There was only one special area mentioned, round the foot of the Burin Peninsula and actually Mr. Rowe mentioned nothing of consequence about that area. The south Coast was almost completely left out of the FRED program, of unhallowed memory and it now seems they are to be left out of the DREE program.

People should remember, when considering the highroads announcement, that there are many sections of road in the Burin Peninsula area that have been ready for pavement for as long as two years. It is only now that they are beginning to get the promise of pavement - and that hasn't as yet been done and probably won't be done until 1972. In my own district we are getting ready for a stretch of pavement between Garnish and Frenchman's Cove. I asked for that five years ago and it is only now that they are beginning to work on it.

No water and sewerage systems were announced for the Fortune Bay area; Nothing at all was announced for the Bay L'Argent-St. Bernards area; nothing at all for the Terrenceville-Grand La Pierre area; and nothing at all for the west side of Fortune Vay. Like many other places in Newfoundland the people of these areas will benefit very little from the overrated DREE program.
